Chandigarh (by submitting demand draft of Rs.1,000/- payable at Chandigarh, in favor of Registrar P. U. Chd).

#### From

The Principal-cum-Professor,

Dr. Harvansh Singh Judge Institute of Dental Sciences & Hospital, Sector-25, Panjab University, Chandigarh.

1. The Principal cum Professor, Dr. Harvansh Singh Judge Institute of Dental Sciences & Hospital, Sector-25, Punjab University, and Chandigarh has invited the Tender for the purchase/fabrication of following item.

Name of Equipment	Details specification, qty. at Annexure-C, page No.
Mobile Dental Van,	16-64
Equipments & Consumable	(Serial No. 01-458)
items	
Equipments & Consumable	65-66
	(Serial No.459-482)
Dental Consumable	67-71
	(Serial No.483-700)

### <u>Please submit three separate bids for the items from Sr.No.1 to 458, Sr.No. 459 to 482 and Sr.No.483 to 700.</u>

- 2 (a) You are invited to send the Technical bid and Commercials bid in duplicate to Principal cum Professor, Dr Harvansh Singh Judge Institute of Dental Sciences & Hospital, Sector-25, Panjab University, Chandigarh. The Technical bid and price bid should be covered in a separate sealed cover. Tender Documents may please be posted/ submitted at the address given above. The latest hour and date of receipt of the offer is upto 3.00 p.m. on .
  - (b) The Technical bid shall be opened at **2.00 p.m.** on the next day of last date of receiving the tender. The date and time for opening of the Commercial Bids shall be intimated later after evaluation. In case date of opening falls on day which is declared public holiday, the bids shall be opened on the following day at the same time.
- 3. Only manufacturers/authorized fabricators or their sole authorized distributors/sole agents are entitled to submit the Tender, otherwise tender shall not be considered. All offers other than those from the manufacturers / authorized fabricators should be supported by authority letter from the manufacturers/ authorized fabricators authorizing to the firm to submit tender on their behalf.

Certificate or a Photostat copy thereof to the effect that you are the manufacturers/ authorized fabricators of the Mobile Dental Van, equipment/ authorized sole distributors or sole agents for manufacturer/ authorized fabricators on whose behalf you are quoting, must be included in the documents.

The tender should meet the following criteria:

- (i) The tenderer must be a manufacturer/ authorized fabricators, authorized distributors / sole agent (specifically against this tender for the subject fabrication of Mobile Dental Van, equipments and consumable items) and should have successfully executed contracts for similar in the past three years prior to the date of tender opening. In support of this, the tenderer shall furnish performance statement in the enclosed Annexure I.
- (ii) The tenderer meeting the above requirements, except for successful execution of contract for the last three years, may also participate in the tender process, provided they have valid ongoing collaboration Agreement with a manufacturer/ authorized fabricator, authorized distributors / sole agent who, in turn fully meets the criteria specified in clause (i) above and provided also, the tenderer furnishes an undertaking jointly executed by it and the collaborator for satisfactory designs, manufacturing, erection, commissioning and performance of the goods and services offered including all warranty obligations.
- 4 (a) The detailed technical specifications of **(fabrication of Mobile Dental Van, equipments and consumable items)** are given in Annexure 'C'.
  - (b) Technical specifications are intended to be descriptive only and not restrictive. The bidder may substitute alternative standards, brand names and/or catalogue numbers in its bids, provided that it demonstrates to the purchaser's satisfaction that the substitutions are substantially equivalent or superior to those designated in the 'Technical Specifications'.

#### 5. GUARANTEE / WANRRANTY & AMC/CMC

- (a) Guarantee / warranty shall be quoted for 36 months until or unless it is stated to be otherwise in Annexure 'C'. In case of variation, the guarantee / warranty may be quoted for the period given in Annexure 'C'.
- (b)In addition to quoting for the equipment as per Para 1, above, tenderers must quote the charges for Annual Maintenance Contract (AMC) for a period of 5 years for maintaining the equipment at this Institute after the expiry of the period of warranty / guarantee. During, the service contract period, the firm shall provide four preventive maintenance visits and in addition attending to all emergent and break-down calls. The service contract charges should be quoted for labour cost only and should not include the cost of any replacement parts / components that may be needing replacement. During the service contract period replacement of parts / components that may be needing replacement shall be made available by the Institute to the firm at the Institute's own expense. The charges shall be paid to the firm in quarterly installments after satisfactory service.
- (c) In addition to quoting the charges for the AMC as mentioned in Para 5(b), the firm must also quote the charges for comprehensive Maintenance Contract (CMC) for a period of 5 years after the expiry of period of guarantee/ warranty. The CMC charges should be quoted for labour cost as well as cost of any replacement parts / components that may be required for keeping the equipment functional.

- (d) The uptime guarantee of 347 days in a block of 365 days as defined in Para 15 of Annexure -A will also apply to the service contract period, both AMC and CMC whichever the Institute will enter.
- (e) It is essential to quote the charges and terms and conditions for the service contract as in Sub Para (b) and (c) above. Tenders not containing service contract charges shall be considered incomplete and shall be rejected. The charges of AMC and CMC will be taken into account while comparing the prices.
- (f) The EMD will be returned after completion of tender process to the unsuccessful firms and after receiving the Bank Grantee to the successful firms.

#### 6. TERMS OF FABERICATION (FOR MOBILE DENTAL VAN ONLY SR. NO.

i) Dr. Harvansh Singh Judge Institute of Dental Sciences & Hospital, Sector-25, P.U. Chandigarh shall provide the chassis for fabrication to the vender as per

#### **Options given with the details specification at (ANNEXURE-C)**

- ii) There shall be a Pre-inspection of the Built up body & final inspection of the Installed accessories before applying to the Transport deptt. for registration.
- iii) Registration shall be the sole responsibility of the Vendor, however only formalities requiring paper work shall be done by the Institute.
- iv) The approved vender for fabrication of Mobile Dental Van over the chassis provided by the Institute, shall submit a Bank Guarantee in favor of Principal- cum- Professor Dr. Harvansh Singh Judge Institute of Dental Sciences & Hospital, Sector-25, P.U. to the tune of the cost of the chassis before handing over of the chassis to the vendor.

#### 7. BID GUARANTEE AND SECURITY:

The tenderer is required to furnish Bid Guarantee and Security as per item 5 in Annexure 'A'.

#### 8. CLARIFICATION OF BIDDING DOCUMENTS:

9. A prospective bidder requiring any clarification of the tender documents may notify the purchaser in writing or by telex or cable at the purchaser's mailing address indicated in the invitation for tenders. The purchaser will respond in writing to any request for clarification of the bidding documents which it receives not later than 15 (**Fifteen day**) prior to the deadline for submission of bids prescribed by the purchaser. Written copies of the purchaser's response (including an explanation of the query but without identifying the source of inquiry) will be sent to all prospective bidders which have received the bidding documents.

#### 10. AMENDMENT OF BIDDING DOCUMENTS:

- 10.1 At any time prior to the deadline for submission of bids, the purchaser may, for any reason, whether at its own initiative or in response to a clarification requested by a prospective bidder, modify the bidding documents by amendment.
- 10.2 The amendment will be notified in writing or by telex or cable to all prospective bidders which have received the bidding documents and will be binding on them.

10.3 In order to afford prospective bidders reasonable time in which to take the amendment into account in preparing their bid, the purchaser may, at its discretion, extend the deadline for the submission of bids.

#### 11. TERMS OF PAYMENT

- 11.1 Final payment shall be made after receiving of the Mobile Dental Van and submitting the satisfactory working / installation report duly signed by HOD of concern Deptt., Principal cum Professor of the Institute and registration & physical fitness certification by RTO/ Deptt. of Transport Chandigarh.
- 11.2 Final payment shall be made after receiving of the equipments/ consumable items, as per specification, installation and submitting the satisfactory working report duly verified by the HOD of user Deptt. and principal cum professor of the Institute.

#### 12. DETAILED INSTRUCTIONS FOR SUBMISSION OF TENDER:

Any effort by a bidder to influence the purchaser in the purchaser's bid evaluation, bid comparison or contract award decisions shall result in the rejection of the bidder's bid and also banning of business dealings with the bidder for a period of three years from the date of such ban.

- 12.1 The detailed instructions for the preparation and submission of the tender and the terms and conditions of the tender are given in the enclosed Annexure 'A'. Tenderers must note carefully that any infringement of the specific requirements contained therein may invalidate the tender.
- 13. This tender form is not transferable.
- 14. This tender form consists of pages 1 to 39pages. This tender form alongwith covering letter and Annexure should be returned to the Institute alongwith offer letter/Technical Bid.
- 15. Offers not on the prescribed form shall not be considered.

The Principal cum Professor, Dr. Harvansh Singh Judge Institute of Dental Sciences & Hospital, Panjab University, Chandigarh.

### ANNEXURE 'A' INSTRUCTIONS TO TENDERERS AND TERMS AND CONDITIONS OF THE TENDER

- 1. Only Manufacturers/ authorized fabricators or their Sole Authorized Distributors / Sole Agents are entitled to submit the Proforma Invoices.
- 2. The tender shall be prepared and submitted as per **Para 27** of this Annexure.
- 3. A person signing the tender form or any other document forming part of the contract on behalf of another shall be deemed to warranty that he has authority to bind such others and if on enquiry it appears that the person so signing had no authority to do so, the purchaser, may, without prejudice to other civil and criminal remedies against the contract, hold the signatory liable for all costs and damages and forfeit Earnest Money.
- 3.1 Rates and Service charges should not be quoted in the Technical bid.
- 3.2 All pages of the Technical Bid/Price Bid shall be page numbered. In case of duplicate copies, separate copies shall be page numbered separately.
- 3.3 Tenders/Proforma Invoices not accompanied by detailed information as required, are liable to be rejected.

### 4. EARNEST MONEY DEPOSIT AND PERFORMANCE BOND / BANK GUARANTEE

a) The tender must be accompanied with Earnest Money as detailed below in a lump sum amount in the form of Demand Draft valid for one year on a scheduled bank/term deposit receipt valid for a period of one year from any scheduled bank in the name of the Principal-cum-Professor, Dr. Harvansh Singh Judge Institute of Dental Sciences & Hospital, Panjab University, Chandigarh. Earnest Money in any other form will not be accepted F.O.R. cost of equipment:

Up to Rs.10.00 Lacs: Earnest money: Rs.25,000/-

Between Rs.10.00 Lacs to Rs.20.00 Lacs: Earnest money: Rs.40,000/-

Between Rs.20.00 Lacs to Rs.50.00 Lacs: Earnest Money Rs.50,000/-

Beyond Rs.50.00 Lacs: Earnest money: Rs.1.00 Lac.

- b) Bids not accompanied by Earnest Money as stated above or less than the amount stipulated above shall be summarily rejected.
- c) Earnest Money/security deposit/any other sums of the tenderers lying with the Institute in connection with any other tender/case will not be considered against this tender.
- d) The successful tenderer shall be required to furnish a Contract Performance Guarantee Bond in the shape of Bank Guarantee (as per Annexure E) or FDR/TDR (pledged in favour of The Principal cum professor, Dr. Harvansh Singh Judge Institute of Dental Sciences & Hospital, Sector-25, Panjab University, Chandigarh along with the undertaking as at Annexure E-I) for an amount equivalent to 10% of the FOB value, or as the case may be, of the Mobile Dental Van /equipment towards the execution of the Agreement and the warranty. The term equipment, wherever used, means the main equipment and the electrical, civil and any other miscellaneous work done in the turnkey project. The Bank Guarantee or FDR/TDR should be valid for 30 months. The Bank Guarantee for 10% of the FOB value shall be submitted within a period of 30 days after the placement of the Supply Order failing which the order will be liable to be cancelled and the earnest money forfeited.

- e) The Institute would return the earnest money mentioned to the successful tendering firm on the submission of the Bank Guarantee, to cover the service contract period after the expiry of guarantee/warrantee period of 36 months.
- f) The successful tenderer will submit Bank Guarantee equivalent to 5% of the FOB value in case of AMC or 10% of the FOB value in case of CMC, as the case may be, to cover the service contract period after the expiry of guarantee/warranty period of 24 months or as indicated in Annexure C or extended period on account of penalty. Bank Guarantee mentioned in Para 5 (g) above will be returned on the receipt of Bank Guarantee indicated in this clause subject to the fulfillment of conditions.
- 5. The University does not pledge itself to accept the lowest, or any tender, and reserves to itself the right of acceptance of the whole or any part of the tender, or portion of the quantity offered, and the tenderers shall be required to supply the same at the rate quoted. The University reserves to itself the right to accept or reject any or all the tenders without assigning any reason thereof.
- 6. Printed or cyclostyled or such terms and conditions of the tendering firms not appearing in the body of the tender will not be considered as forming part of the tender.

#### **CUSTOM CLEARANCE**

The equipment requiring import from abroad will be imported under the OGL scheme, for which tenderer will ensure before shipment takes place, that the equipment, in question, can be imported under the said scheme.

- a. The equipment will be got cleared from the Custom by the tenderer at their own cost, demurrage if any will be borne by the tenderer.
- b. It will be the responsibility of the tenderer to pursue and claims with the customs authorities/insurance company/cargo operators and transporters, as may arise, at any stage.
- c. The N.M.I.C. (Not Manufactured in India Certificate) and the CDEC (Custom Duty Exemption Certificate) will be provided by the University.

#### **INSURANCE**

7. (i) The Manufacturers/ authorized fabricators or their Sole Authorized Distributors / Sole Agents will ensure that the Mobile Dental Van, equipments and consumable items are properly insured for the full C.I.F. value to cover the transit upto site of installation and the further period of storage etc. upto end of the period of installation as agreed upon. If the installation is delayed beyond the agreed date of satisfactory installation, commissioning and handing over of the equipment, then in that event any transit and storage damages which come to light after such delays, shall be at the risk and cost of the tenderers. The Tenderers/Indian Agent shall provide to the Institute, after due inspection, a detailed list of any loss or damage to the stores that may have occurred so as to enable the purchaser to file appropriate claims with the Insurance company. However it shall be the responsibility of the Institute to prepare, lodge and pursue any claims that may arise with the Insurance Company (ies).. The manufacturers shall provide all assistance in pursuing any such insurance claims expeditiously. The manufacturers shall make free replacement, if required, in lieu of damaged/lost items, etc. regardless of the fact whether the claim is settled by the underwriters or not. The manufacturers' liability shall be restricted to making free replacements/rectifications and any local expenses such as custom duty/clearance, etc. connected with such replacements.

It should be noted that if, in consideration of offer of earlier delivery, the contract is placed with a higher tenderer in preference to the lowest acceptable offer, and in case of failure to complete supplies in terms of such contract within the date of delivery specified and incorporated in the contract, the tenderer will be liable to pay to the Institute the difference between the contract rate and that of the lowest acceptable tender on the basis of the final prices FOB destination including all elements of freight, sales tax, local taxes, duties and other incidentals. This is in addition to and without prejudice to other rights of the Institute to recover all other losses and damages resulting from delayed supplies, cancellation of contract and risk purchases required to be made in case of failure to supply the stores.

#### **GUARANTEE/WARRANTY**

The guarantee/warranty against defects of manufacture/ authorized fabricator workmanship and poor quality of components for the entire equipment and the work conducted under the contract shall be for a period of 36 months or as indicated in Annexure -D or extended period on account of penalty starting from the date of satisfactory installation, commissioning and handing over of the equipment at site. The term satisfactory commissioning and handing over wherever used in terms of tender and Agreement will mean satisfactory and faultless functioning of the equipment for 90 days, and of works conducted therewith covered under the contract in working order. guarantee/warranty period, the replacement of any part of the equipment or rectification of defects of works will be free of cost. Further, the defective parts/equipment shall be returned by the purchaser to the Indian Agent after making replacement. During the guarantee/warranty period the uptime as defined in Para 15 will be required to be maintained. If the down-time exceeds five consecutive days as defined in Para 15 at any time the guarantee/warranty period will be extended beyond twenty four months to a duration equal to the total of such periods of downtime during the period of warranty.

- 8. The tenderer will be required to furnish guarantee/warranty as under:
  - (a) The tenderer should submit a written guarantee/warranty from the manufacturers stating that the equipment being offered is the latest model as per specifications and that spares for the equipment will be available for a period of at least 10 years after the guarantee/warranty period. The manufacturer should also warranty/guarantee that it will keep the Institute informed of any up-date of the equipment over a period of next 5 years and undertake to provide the same to the Institute at no extra cost.
  - (b) Guarantee/warranty that they will supply regularly any items of spare parts requisitioned by the purchaser for satisfactory operation of the equipment till the life span, to be decided mutually of the equipment, if and when required on agreed basis for an agreed price. The agreed basis could be an agreed discount on the published catalogue price or an agreed percentage of profit on the landed cost.
  - (c) Guarantee/warranty to the effect that before going out of production of spare parts, the manufacturers and/or tenderers will give adequate advance notice to the purchaser of the equipment so that the later may undertake to procure the balance of the life time requirements of spare parts.
  - (d) The guarantee/warranty to the effect that the manufacturers will make available to the Institute, the blue-prints and drawings of the spare parts if and when required in connection with the equipment.

- 9. The tenderer shall furnish the following warranty/ guarantee in case the contract is placed to him:-
  - (a) The tendered hereby declares that the goods/stores/articles supplied to the buyer under this contract shall be of the best quality and workmanship and shall be strictly in accordance with the specifications and particulars contained/mentioned in the clauses here of and the tenderer hereby guarantee/ warranty that the said goods/stores/ articles conform to the description and quality aforesaid. The purchaser will be entitled to reject the said goods/stores/articles or such portion thereof as may be discovered not to conform to the said description and quality. Such rejection of goods/stores/articles will be at the seller's risks and all the provisions herein contained relating to rejection of goods, etc. shall apply. The contractor/seller, shall, if called upon to do so, replace within a period of fourteen days or such further period as may be extended from time to time by the purchaser at his discretion, on an application made thereof by the tenderer, the goods/stores/articles or such portion thereof as rejected by the purchaser. In such an event, the above mentioned warranty/guarantee period of the entire equipment shall be extended by the time taken for these replacements. Otherwise the tenderer shall pay to the purchasers such damage as may arise by reason of breach of the conditions herein contained. Nothing herein contained shall prejudice any other right of the purchaser in that behalf.
  - (b) Tenderers should state categorically whether they have fully trained technical staff for installation/commissioning of the equipment and efficient after sales service.
  - (c) Tenderers should categorically confirm that they will give free "After sales services" during guarantee/ warranty period as stipulated in the Clause 10(i) / Annexure C from the date of installation, satisfactory commissioning and handing over of the project/ equipment. Warranty for a period less than as stipulated in Para 10 (i) or with conditions may render the tender invalid.
  - (d) It is specifically required that the tenderer will supply all the operating and service manuals alongwith blue-prints and drawings including circuit diagrams of the equipment supplied as well as its components.
  - (e) The Tender must be submitted along with copies of:
    - Manufacturers/ fabricator license to quote for this tender.
    - > Sales Tax Registration Certificate.
  - (f) Tender Conditions:
    - (i) Company must be ISO certified.
    - (ii) All certificates, pre-conditions and quotations must be submitted in English language only.

### MODE OF DESPATCH, DELIVERY AND COMMISSIONING OF EQUIPMENT:

The Mobile Dental Van / equipment with all its accessories should be dispatched duly insured, freight and insurance charges pre-paid. The tenderer is required to undertake to deliver, install, commission and handover the Mobile Dental Van within the stipulated period. The installation of the equipment shall be completed

and handed over, within the time schedule given in the tender. The consumable shall be supplied within 15 days of the order as and when placed and in the quotation ordered. This stipulated period should be strictly adhered to for implementation.

#### 10. <u>CONTRACT:</u>

The successful bidder will be required to enter into an Agreement (please see Annexure 'D') with the Institute on a non-judicial paper of Rs.30.00 for the supply and satisfactory installation of the equipment as defined above as per specifications and terms and conditions listed in the document and agreed upon.

- 11. The whole system will be operated by the company engineers/experts for 90 days i.e. till satisfactory installation and commissioning as per Clause 10(i).
- 12. Voltage Stabilizers, Isolation Transformers/U.P.S. systems:
  - (i) Voltage stabilizers, Isolation Transformer or U.P.S. system, as may be required, should form part of the equipment although separate quotations for the same from indigenous sources shall also be submitted. The voltage range in the Institute varies from 175 235. Any defect occurring in the equipment because of the defects in voltage stabilizers, Isolation Transformer or U.P.S. system as the case may be shall be attributable to the suppliers and the cost of repairs and the replacement, if any, shall be borne by the suppliers during the guarantee/warranty period as well as the service contract period.
  - (ii) If any part of the equipment goes defective on account of inherent fault in the machine or in any component of the equipment and needing replacement shall be replaced by the supplier during the contract period free of cost i.e. to say any defect caused in a part of the machine on account of non-maintenance of the main machine during the contract period shall be attributable to the supplier and the cost of replacement thereof shall be borne by them.

#### 13. PERIOD FOR WHICH THE OFFER WILL REMAIN OPEN:

The tendering firms should keep their offers valid for acceptance for a period of 330 days from the date of opening of the technical bids. If the firms are unable to keep their offers open for the above said period, they should specifically state the period for which their offers would remain open but they must realise that such a provision may result in the rejection of their offers, provided, however, that in the event that the day upto which the offer is to remain open is declared holiday for the Panjab University, Chandigarh the offer shall remain open for the following day.

#### 14. INSPECTION:

INSPECTING AUTHORITY: Principal cum Professor, Dr. Harvansh Singh judge Institute of Dental Sciences & Hospital, Panjab University, and Chandigarh. or any other Authority declared as such by the Institute.

- 15. Tenderers are required to quote for C.I.F. Dr. Harvansh Singh judge Institute of Dental Sciences & Hospital, Sector-25, P.U. Chandigarh.
- 16. PACKING AND MARKING: Best trade packing suitable for safe Rail/Road/ shall be used subject to packing and marking being acceptable to the Inspecting Authority.

#### 17. <u>SERVICE CONTRACT</u>.

In addition to quoting for the equipment alongwith its accessories, tenderer must quote for Annual Maintenance Contract (AMC) as well as for Comprehensive Maintenance Contract (CMC) for a period of 5 years for maintaining the equipment at this Institute after the period of warranty or extended as the case may be. During the service contract period the firm shall provide four preventive maintenance visits per year in addition to attending all emergency break down calls. The uptime guarantee of 347 days in a block of 365 days as defined in Para 15 also apply to the service contract period. The AMC and CMC rates will be taken into account while comparing the prices.

- (a) In case of AMC, the charges should be quoted for labour cost only and should not include the cost of any replacement parts/components that may be needing replacement. Thus the charges quoted will be for service only. During the AMC replacement of parts or components that may be needed replacement shall be made available by the Institute at the Institute's own expenses but the firm has to submit the Proforma Invoice for the spares that needs replacement within a period of 4 days failing which the extra period will be counted as down time. During the AMC the time taken by the Institute in providing the spares till the function of the unit will not be calculated as down time but the period of AMC will be extended equivalent to the period the unit remain out of order.
- (b) If the Institute opts to enter CMC during this period the equipment alongwith accessories has to be maintained for 347 days in a block of 365 days as defined in Para 15. However, 5 days time will be allowed to procure the spares in case the same has to be imported and 5 days will not be counted as down time. In case of CMC, the charges should be quoted for labour cost as well as for the cost of any replacement parts / components that may be required for keeping the equipment and accessories functional.
- (c) The rates of the service contract after warranty period for both AMC and CMC must be indicated strictly as below:

		AMC		CMC		
Rate for 1st year	Rs		_Rs	}		
Rate for 2nd year	Rs		_Rs	}		
Rate for 3rd year units.	Rs		_Rs	}	for	
Rate for 4th year	Rs		_Rs	}		
Rate for 5th year	Rs		_Rs	}		

- NOTE 1: Rates of AMC and CMC are to be quoted in Indian Rupees only as these shall be paid in Indian Rupees only.
- NOTE 2: CMC has to be for all parts. The CMC may also include consumable and reagents to the extent indicated in Annexure C. Any conditional offer may render the tender invalid

The charges for the service contract will be paid in 4 equal installments in arrears for satisfactory service or as per mutually agreed upon schedule.

#### 18. <u>JURISDICTION</u>:

The courts at Chandigarh alone will have the jurisdiction to try any matter, dispute or reference between the parties arising out of this Agreement/contract. It is specifically agreed that no court outside and other than Chandigarh court shall have jurisdiction in the matter.

#### **ANNEXURE 'B'**

(To be returned, fully complete, with the Technical Bid)

#### GENERAL QUESTIONNAIRE

- (i) This Annexure must accompany the Technical Bid.
- (ii) The tenderers must give specific answers against each of the following questions.
- (iii) Equivocal or evasive replies will render the tender liable to be ignored.

#### **QUESTIONS:**

- 1. Name and address of manufacture/ fabricators:-
- 2. Station/Place of manufacturer / fabricators:-
- 3. Whether the tendering firm is :
  - i) Manufacturer
  - ii)Authorized fabricator
  - iii) Manufacturer's authorized agents
  - iv)Holders of stock of the stores tendered for.
- 4. If stores offered are manufactured in India, please state whether all the raw materials, components etc. used in their manufacture are also produced in India. If not, give details of materials, components etc. that are imported and their break-up of the indigenous and imported components together with their value and proportion it bears to the total value of the stores.
- 5. State whether raw materials are held in stock in India sufficient for the manufacture of the stores.
- 6. Please state specifically whether the price tendered by you is to the best of your knowledge and belief, not more than the price permissible for you to charge a private purchaser for the same class and description of goods under the provisions of any law for the time being in force and not more than the prices you would charge from other Govt. Depts./Institutions in India. If not, state the reasons as well as the margin of profit included.
- 7. Please indicate the following:
  - a) The precise relationship between the foreign manufacturers/ principals and their Indian Agents/Associates.
  - b) The mutual interest which the manufacturer/principals and the Indian Agents/Associates have in the business of each other.
- 8. Business name and construction of tendering firm. Is the firm registered under:
  - i) The Indian Companies Act, 1956.
  - ii) The Indian Partnership Act, 1932 (please give the name of partner).
  - iii) Any other act.

- iv) If the firm is not registered please give the name (s) and address of the owner(s)
- 9. (A) Do you agree to various clauses of Para 16 of the Agreement (Annexure D) regarding Arbitration.
  - (B) (i) In the case of partnership firms, whether registered under Indian partnership Act, 1932.
    - (ii) In case the answer to question at 9(A) by the partnership firms be in the affirmative please state further:-
  - (iii) Whether in the partnership Agreement, authority to refer disputes concerning the business of the partnership to arbitration has been conferred on the partner who has signed the tender.
  - (iv) If the answer(s) to question 9(B)(iii) is in the negative, whether there is any general power of attorney executed by all the partners of the firm authorizing the partner who has signed the tender to refer disputes concerning business of the partnership to arbitration.
  - (C) If the answers to either 9(B)(iii) or 9(B)(iv) is in the affirmative, please, furnish a copy of either the partnership Agreement or the general power of attorney, as the case may be.

Note before (1): Please attach to the technical bid a copy of the Partnership Agreement or the General Power of Attorney on either of which reliance is placed for authority of partner or the partner signing the tender to refer disputes to arbitration. The copy should be attested by a NOTARY PUBLIC or its execution should be admitted by an affidavit drawn on properly stamped paper by all the partners.

- 10. Indicate clearly the guaranteed delivery/commissioning and handing over period.
- 11. Please state clearly the period for which your offer will be valid for acceptance beyond the date of opening of the Technical Bids (please see note below):

IMPORTANT NOTE: Tendering firms are requested to keep their offers valid for acceptance for a period of 330 days from the date of opening of the Technical Bids. If the firm is unable to keep its offer open for the specified period of 330 days, then they should specifically state the period for which their offers would remain open but they must realize that such a provision may result in the rejection of their offers.

12. Please furnish the following details:-

Indian Agent

Income Tax

Permanent Account Number:

#### ANNEXURE 'C'

#### (To be returned with the Technical Bid)

#### SPECIFICATION FOR FABRICATION OF MOBILE DENTAL VAN

#### **OPTION-1:**

Fabrication of mobile dental van over a chassis of Swaraj Mazda make, prestige TC-III WT 50, TC-II LWB COWL with wheel base 3940mm and 3455cc, which shall be provided by the university. The job has to be accomplished in all aspects within 2 months from the date of allotment of tender

#### A. Built-up Body

#### **EXTERIOR BODY SPECIFICATIONS:**

Overall length, width and height of the Body should be in accordance to the permitted length, width and height by the Regional Transport Office of Chandigarh, which would be based on the Chassis Specifications.

#### INTERIOR BODY AND FLOOR SPECIFICATIONS:

- 1. <u>Sitting seats /benches</u> for atleast 5 people, desirable more, in passenger compartment. Seats should be made of high density moulded polyurethane foam with head rest.
- 2. A <u>tank</u> of capacity 200 L should be fiber coated on the inside, lined with FRP coat of 600 Microns with relevant resin coating on top of it along with necessary supply & drain piping along with pump of 0.25 hp. Location of the tank as per design approved.
- 3. One <u>drain slump</u> of 75 Liters capacity should be provided to contain the waste water from the dental unit as well as the sink.
- 4. <u>Storage cabinet</u> (metal) One sink, appropriately placed for space saving and have drawers for keeping instruments and should be lockable. It should be adjusted for best space utilization.
- 5. <u>Luggage storage racks</u> on both sides of the van.
- 6. <u>Under carriage storage space</u> shall be provided to house the DC battery power pack of one battery & Inverter, air compressor, as well as generator unit (220 Volts).
- 7. The body of the van should be fabricated from all steel and aluminum material of prime make, like Tata, Jindal, Ispat, Indal or Balco. It should be provided with complete heat & sound insulation packing using glass wool or Polyurethane between the outer & inner panels.
- 8. There should be appropriate space for installation of 2 dental chairs
- 9. Canopy on one side foldable, length and width of 7.5 feet
- 10. Antistatic, antibacterial flooring with 2mm thickness
- 11. Exterior artwork and painting of entire vehicle as per university's choice and design
- 12. Adequate number of <u>electrical points</u> should be provided for 5 Amp and 15 Amp.
- 13. There should be provision to run dental chairs and other equipments both on generator as well as direct supply from the source.

### **B.** ACCESSORIES: following accessories should be purchased and fitted within the van by the tenderer:

1. It should be installed with <u>air conditioning system</u> (One) of 1 Ton capacity (12250 BTU/Hr.) or its equivalent for cooling and there should be provision for heating as well. A residential grade split air conditioner must NOT be used in the vehicle.

- 2. TV and DVD player (1 NO each) a 26 inch LCD TV along with same company DVD player for compatibility issues should be fitted in the van.
- 3. <u>Alternating Current generator</u> of 220 Volts, minimum 6.8 Kva of Honda company or its best equivalent shall be installed in the rear of the van. It should be powerful enough to take load of 4KVA 220 volts alternator & compressor. It should be housed in undercarriage and should have provision to pull it out on strong channels when required for use.
- 4. <u>Public address system</u> One public address amplifier along with a cone speaker & microphone, battery operated.
- 5. One stabilizer -4 KV
- 6. One oxygen cylinder portable for medical use.
- 7. Wall Mounted two Fans and one Exhaust
- 8. Music system with speakers. CD player and FM facility
- 9. Extra fuel tank-20 litres for storing fuel for generator
- 10. One Carbon dioxide Gas and one Dry Chemical Powder <u>fire extinguishers</u> should be supplied with the van
- 11. First Aid Box -1

### DENTAL ITEMS: the following items shall be purchased and installed by the tenderer

- 1. <u>Compressor</u> (1 no.) it should be Oil-free, Medical grade Mono-bloc of 1 1.25HP power,
- 2. <u>Intra oral X-ray machine</u> (1 no) with following specifications:
  - Scissor pantographic Arm with both options of Wall Mounting / Floor Mounting
  - Automatic timers 0.02 to 3.0 seconds
  - Tube head to be lead coated.
  - 70kVp, 8mA
  - Focal spot less than or equal to 0.8 mm fine focus Italian tube inside Total filtration > 2 mm (AI equivalent)
  - Cordless Remote Exposure switch
  - Separate buttons for RVG & IOPA Uses.
  - User interface small LCD window operation.
  - Target Angle 18 20
  - Automatic time set for child, adult mode
  - Manual time set should also be available
  - Should be Suitable for Digital Sensor and IOPA films
  - Line Voltage 115 V or 60 Hz or 230 V, 50 Hz
  - Extended Warranty Required and provision of AMC.
- 3. <u>Dental chair units</u> -2 no. with following specifications- electronically operated with spittoon attachment, halogen light with 2 intensity, air ventury suction, airrotor, micromotor, 3 way syringe, light cure, ultrasonic scaler, x-ray viewer, instrument tray, operating stool, chair of make –confident, mookambika model or its best equivalent

#### **Specifications of accessories with each chair:**

- 4. <u>Air rotor(1no.)</u> Ultrapush hand piece with quick change coupling & tubing with the <u>non-retraction valve</u> built in, to prevent flow of saliva into tubing & infection control. Airotor Hand-piece having a speed of 4,00,000 RPM, clean head of NSK, KAVO or its best equivalent make
- 5. <u>Micromotor</u> (1no.)- Speed range 1000-40,000 RPM. Should be Supplied with Contrangle Hand piece of NSK, KAVO or its best equivalent make
- 6. <u>Ultrasonic Scaler</u> (1no.)- It should be piezotronic Scalar 30 Khz frequency. Autoclavable Hand piece total control is micro processed based control unit. The

- scalar should be supplied with 3 tips, two scaling tips and one special tip for perio. Should be of EMS make or its best equivalent
- 7. <u>Light cure unit</u> (1 no.)- it should be light weight portable cordless light cure unit using LED as light source, have a Built in radiometer with Extra long life time > 20,000 hours and Optical focusing. Should have Autoclavable fibreglass light-guide of 3-13 mm (different tip sizes) High performance lithium ion battery with a shorter charging time, Wavelength range 420-450 nm, should be of Coltene, Dentsply or ivoclar company or its equivalent.
- 8. Manual x ray developer-1
- 9. One <u>autoclave</u> having wet and dry cycle, table top and front loading which can achieve temperature of 135 C with minimum capacity of 20 litres. It should be supplied with accessories like tray stand-1, trays-3 and bin-1no.
- 10. <u>Glass bead sterilizer-1:</u> should be portable, easy to handle with low electricity consumption. On reaching 215 C indicator light should be on and unit should be made of high quality glass to withstand such temperature.

#### SPECIFICATION FOR FABRICATION OF MOBILE DENTAL VAN

#### **OPTION-2:**

Fabrication of mobile dental van <u>BODY ONLY</u> over a chassis of Swaraj Mazda make, prestige TC – III WT 50, TC-II LWB COWL with wheel base 3940mm and 3455cc, which shall be provided by the university. The job has to be accomplished in all aspects within 2 months from the date of allotment of tender

- should be housed in undercarriage and should have provision to pull it out on strong channels when required for use.
- 4. <u>Public address system</u> One public address amplifier along with a cone speaker & microphone, battery operated.
- 5. One stabilizer -4 KV
- 6. One oxygen cylinder portable for medical use.
- 7. Wall Mounted two Fans and one Exhaust
- 8. Music system with speakers. CD player and FM facility
- 9. Extra fuel tank-20 litres for storing fuel for generator
- 10. One Carbon dioxide Gas and one Dry Chemical Powder <u>fire extinguishers</u> should be supplied with the van
- 11. First Aid Box -1

### DENTAL ITEMS: the following items shall be provided by the institute and shall be installed by the tenderer-

- 1. <u>Compressor</u> (1 no.) it should be Oil-free, Medical grade Mono-bloc of 1 1.25HP power,
- 2. <u>Intra oral X-ray machine</u> (1 no) with following specifications:
  - Scissor pantographic Arm with both options of Wall Mounting / Floor Mounting
  - Automatic timers 0.02 to 3.0 seconds
  - Tube head to be lead coated.
  - 70kVp, 8mA
  - Focal spot less than or equal to 0.8 mm fine focus Italian tube inside Total filtration > 2 mm (AI equivalent)
  - Cordless Remote Exposure switch
  - Separate buttons for RVG & IOPA Uses.
  - User interface small LCD window operation.
  - Target Angle 18 20
  - Automatic time set for child, adult mode
  - Manual time set should also be available
  - Should be Suitable for Digital Sensor and IOPA films
  - Line Voltage 115 V or 60 Hz or 230 V, 50 Hz
  - Extended Warranty Required and provision of AMC.
- 3. <u>Dental chair units</u> -2 no. with following specifications- electronically operated with spittoon attachment, halogen light with 2 intensity, air ventury suction, airrotor, micromotor, 3 way syringe, light cure, ultrasonic scaler, x-ray viewer, instrument tray, operating stool, chair of make –confident, mookambika model or its best equivalent

#### **Specifications of accessories with EACH chair:**

- A. <u>Air rotor(1no.)</u> Ultrapush hand piece with quick change coupling & tubing with the <u>non-retraction valve</u> built in, to prevent flow of saliva into tubing & infection control. Airotor Hand-piece having a speed of 4,00,000 RPM, clean head of NSK, KAVO or its best equivalent make
- B. <u>Micromotor</u> (1no.)- Speed range 1000-40,000 RPM. Should be Supplied with Contrangle Hand piece of NSK, KAVO or its best equivalent make
- C. <u>Ultrasonic Scaler</u> (1no.)- It should be piezotronic Scalar 30 Khz frequency. Autoclavable Hand piece total control is micro processed based control unit. The scalar should be supplied with 3 tips, two scaling tips and one special tip for perio. Should be of EMS make or its best equivalent
- D. <u>Light cure unit</u> (1 no.)- it should be light weight portable cordless light cure unit using LED as light source, have a Built in radiometer with Extra long life time > 20,000 hours and Optical focusing. Should have Autoclavable

fibreglass light-guide of 3-13 mm (different tip sizes) High performance lithium ion battery with a shorter charging time , Wavelength range 420-450 nm, should be of Coltene, Dentsply or ivoclar company or its equivalent.

- E. Manual x ray developer-1
- F. One <u>autoclave</u> having wet and dry cycle, table top and front loading which can achieve temperature of 135 C with minimum capacity of 20 litres. It should be supplied with accessories like tray stand-1, trays-3 and bin-1no.
- G. <u>Glass bead sterilizer-1:</u> should be portable, easy to handle with low electricity consumption. On reaching 215 C indicator light should be on and unit should be made of high quality glass to withstand such temperature.

#### **OPTION-3**

Fabrication of mobile dental van over a suitable chassis of more than 4800mm wheel base and atleast 2500mm in width, which shall be provided by the university. The job has to be accomplished in all aspects within 2 months from the date of allotment of tender.

#### **A.Built-up Body**

#### **EXTERIOR BODY SPECIFICATIONS:**

Overall length, width and height of the Body should be in accordance to the permitted length, width and height by the Regional Transport Office of Chandigarh, which would be based on the Chassis Specifications.

#### INTERIOR BODY AND FLOOR SPECIFICATIONS:

- 1. <u>Sitting seats /benches</u> for atleast 8-10 people in passenger compartment. Seats should be made of high density moulded polyurethane foam with head rest.
- 2. An <u>extendable platform</u> with steps & railing at the entrance door of the dental operatory compartment.
- 3. A <u>tank</u> of capacity 200 L should be fiber coated on the inside, lined with FRP coat of 600 Microns with relevant resin coating on top of it along with necessary supply & drain piping along with pump of 0.25 hp. Location of the tank as per design approved.
- 4. One <u>drain slump</u> of 75 Liters capacity should be provided to contain the waste water from the dental unit as well as the sink.
- 5. <u>Storage cabinet</u> (metal) with One sink, appropriately placed for space saving and have drawers for keeping instruments and should be lockable. It should be adjusted for best space utilization.
- 6. <u>Luggage storage racks</u> on both sides of the van.
- 7. <u>Under carriage storage space</u> shall be provided to house the DC battery power pack of one battery & Inverter, air compressor, as well as generator unit (220 Volts).
- 8. The body of the van should be fabricated from all steel and aluminum material of prime make, like Tata, Jindal, Ispat, Indal or Balco. It should be provided with complete heat & sound insulation packing using glass wool or Polyurethane between the outer & inner panels.
- 9. There should be appropriate space for installation of 2 dental chairs
- 10. <u>Canopy</u> on one side foldable, length and width of 7.5 feet
- 11. Antistatic, antibacterial <u>flooring</u> with 2mm thickness
- 12. Exterior artwork and painting of entire vehicle as per university's choice and design
- 13. Adequate number of <u>electrical points</u> should be provided for 5 Amp and 15 Amp.
- 14. There should be provision to run dental chairs and other equipments both on generator as well as direct supply from the source.

### **B.ACCESSORIES:** following accessories should be purchased and fitted within the van by the tenderer:

- 1. It should be installed with <u>air conditioning system</u> (One) of 1 Ton capacity (12250 BTU/Hr.) or its equivalent for cooling and there should be provision for heating as well. A residential grade split air conditioner must NOT be used in the vehicle.
- 2. TV and DVD player (1 NO each) a 26 inch LCD TV along with same company DVD player for compatibility issues should be fitted in the van.
- 3. <u>Alternating Current generator</u> of 220 Volts, minimum 6.8 Kva of Honda company or its best equivalent shall be installed in the rear of the van. It should be powerful enough to take load of 4KVA 220 volts alternator & compressor. It

- should be housed in undercarriage and should have provision to pull it out on strong channels when required for use.
- 4. <u>Public address system</u> One public address amplifier along with a cone speaker & microphone, battery operated.
- 5. One stabilizer -4 KV
- 6. One oxygen cylinder portable for medical use.
- 7. Wall Mounted two Fans and one Exhaust
- 8. Music system with speakers. CD player and FM facility
- 9. Extra fuel tank-20 litres for storing fuel for generator
- 10. One Carbon dioxide Gas and one Dry Chemical Powder <u>fire extinguishers</u> should be supplied with the van
- 11. First Aid Box -1

### C.DENTAL ITEMS: the following items shall be purched and installed by the tenderer-

- 1. <u>Compressor</u> (1 no.) it should be Oil-free, Medical grade Mono-bloc of 1 1.25HP power,
- 2. <u>Intra oral X-ray machine</u> (1 no) with following specifications:
  - Scissor pantographic Arm with both options of Wall Mounting / Floor Mounting
  - Automatic timers 0.02 to 3.0 seconds
  - Tube head to be lead coated.
  - 70kVp, 8mA
  - Focal spot less than or equal to 0.8 mm fine focus Italian tube inside Total filtration > 2 mm (AI equivalent)
  - Cordless Remote Exposure switch
  - Separate buttons for RVG & IOPA Uses.
  - User interface small LCD window operation.
  - Target Angle 18 20
  - Automatic time set for child, adult mode
  - Manual time set should also be available
  - Should be Suitable for Digital Sensor and IOPA films
  - Line Voltage 115 V or 60 Hz or 230 V, 50 Hz
  - Extended Warranty Required and provision of AMC.
- 3. <u>Dental chair units</u> -2 no. with following specifications- electronically operated with spittoon attachment, halogen light with 2 intensity, air ventury suction, airrotor, micromotor, 3 way syringe, light cure, ultrasonic scaler, x-ray viewer, instrument tray, operating stool, chair of make –confident, mookambika model or its best equivalent

#### **Specifications of accessories with EACH chair:**

- A. <u>Air rotor(1no.)</u> Ultrapush hand piece with quick change coupling & tubing with the <u>non-retraction valve</u> built in, to prevent flow of saliva into tubing & infection control. Airotor Hand-piece having a speed of 4,00,000 RPM, clean head of NSK, KAVO or its best equivalent make
- B. <u>Micromotor</u> (1no.)- Speed range 1000-40,000 RPM. Should be Supplied with Contrangle Hand piece of NSK, KAVO or its best equivalent make
- C. <u>Ultrasonic Scaler</u> (1no.)- It should be piezotronic Scalar 30 Khz frequency. Autoclavable Hand piece total control is micro processed based control unit. The scalar should be supplied with 3 tips, two scaling tips and one special tip for perio. Should be of EMS make or its best equivalent
- D. <u>Light cure unit</u> (1 no.)- it should be light weight portable cordless light cure unit using LED as light source, have a Built in radiometer with Extra long life time > 20,000 hours and Optical focusing. Should have Autoclavable fibreglass light-guide of 3-13 mm (different tip sizes) High performance lithium ion battery with

- a shorter charging time, Wavelength range 420-450 nm, should be of Coltene, Dentsply or ivoclar company or its equivalent.
- E. Manual x ray developer-1
- F. One <u>autoclave</u> having wet and dry cycle, table top and front loading which can achieve temperature of 135 C with minimum capacity of 20 litres. It should be supplied with accessories like tray stand-1, trays-3 and bin-1no.
- G. <u>Glass bead sterilizer-1:</u> should be portable, easy to handle with low electricity consumption. On reaching 215 C indicator light should be on and unit should be made of high quality glass to withstand such temperature.

#### **OPTION-4:**

Fabrication of mobile dental van <u>BODY ONLY</u> over a suitable chassis of more than 4800mm wheel base and atleast 2500mm in width, which shall be provided by the university. The job has to be accomplished in all aspects within 2 months from the date of allotment of tender.

#### **A.Built-up Body**

#### **EXTERIOR BODY SPECIFICATIONS:**

Overall length, width and height of the Body should be in accordance to the permitted length, width and height by the Regional Transport Office of Chandigarh, which would be based on the Chassis Specifications.

#### INTERIOR BODY AND FLOOR SPECIFICATIONS:

- 1. <u>Sitting seats /benches</u> for atleast 8-10 people in passenger compartment. Seats should be made of high density moulded polyurethane foam with head rest.
- 2. An <u>extendable platform</u> with steps & railing at the entrance door of the dental operatory compartment.
- 3. A <u>tank</u> of capacity 200 L should be fiber coated on the inside, lined with FRP coat of 600 Microns with relevant resin coating on top of it along with necessary supply & drain piping along with pump of 0.25 hp. Location of the tank as per design approved.
- 4. One <u>drain slump</u> of 75 Liters capacity should be provided to contain the waste water from the dental unit as well as the sink.
- 5. <u>Storage cabinet</u> (metal) One sink, appropriately placed for space saving and have drawers for keeping instruments and should be lockable. It should be adjusted for best space utilization.
- 6. <u>Luggage storage racks</u> on both sides of the van.
- 7. <u>Under carriage storage space</u> shall be provided to house the DC battery power pack of one battery & Inverter, air compressor, as well as generator unit (220 Volts).
- 8. The body of the van should be fabricated from all steel and aluminum material of prime make, like Tata, Jindal, Ispat, Indal or Balco. It should be provided with complete heat & sound insulation packing using glass wool or Polyurethane between the outer & inner panels.

- 8. Music system with speakers. CD player and FM facility
- 9. Extra fuel tank-20 litres for storing fuel for generator
- 10. One Carbon dioxide Gas and one Dry Chemical Powder <u>fire extinguishers</u> should be supplied with the van
- 11. First Aid Box -1

### DENTAL ITEMS: the following items shall be provided by the institute and shall be installed by the tenderer-

- 1. <u>Compressor</u> (1 no.) it should be Oil-free, Medical grade Mono-bloc of 1 1.25HP power,
- 2. <u>Intra oral X-ray machine</u> (1 no) with following specifications:
  - Scissor pantographic Arm with both options of Wall Mounting / Floor Mounting
  - Automatic timers 0.02 to 3.0 seconds
  - Tube head to be lead coated.
  - 70kVp, 8mA
  - Focal spot less than or equal to 0.8 mm fine focus Italian tube inside Total filtration > 2 mm (AI equivalent)
  - Cordless Remote Exposure switch
  - Separate buttons for RVG & IOPA Uses.
  - User interface small LCD window operation.
  - Target Angle 18 20
  - Automatic time set for child, adult mode
  - Manual time set should also be available
  - Should be Suitable for Digital Sensor and IOPA films
  - Line Voltage 115 V or 60 Hz or 230 V, 50 Hz
  - Extended Warranty Required and provision of AMC.
- 3. <u>Dental chair units</u> -2 no. with following specifications- electronically operated with spittoon attachment, halogen light with 2 intensity, air ventury suction, airrotor, micromotor, 3 way syringe, light cure, ultrasonic scaler, x-ray viewer, instrument tray, operating stool, chair of make –confident, mookambika model or its best equivalent

#### **Specifications of accessories with EACH chair:**

- H. <u>Air rotor(1no.)</u> Ultrapush hand piece with quick change coupling & tubing with the <u>non-retraction valve</u> built in, to prevent flow of saliva into tubing & infection control. Airotor Hand-piece having a speed of 4,00,000 RPM, clean head of NSK, KAVO or its best equivalent make
- I. <u>Micromotor</u> (1no.)- Speed range 1000-40,000 RPM. Should be Supplied with Contrangle Hand piece of NSK, KAVO or its best equivalent make
- J. <u>Ultrasonic Scaler</u> (1no.)- It should be piezotronic Scalar 30 Khz frequency. Autoclavable Hand piece total control is micro processed based control unit. The scalar should be supplied with 3 tips, two scaling tips and one special tip for perio. Should be of EMS make or its best equivalent
- K. <u>Light cure unit</u> (1 no.)- it should be light weight portable cordless light cure unit using LED as light source, have a Built in radiometer with Extra long life time > 20,000 hours and Optical focusing. Should have Autoclavable fibreglass light-guide of 3-13 mm (different tip sizes) High performance

lithium ion battery with a shorter charging time, Wavelength range 420-450 nm, should be of Coltene, Dentsply or ivoclar company or its equivalent.

- L. Manual x ray developer-1
- M. One <u>autoclave</u> having wet and dry cycle, table top and front loading which can achieve temperature of 135 C with minimum capacity of 20 litres. It should be supplied with accessories like tray stand-1, trays-3 and bin-1no.
- N. <u>Glass bead sterilizer-1:</u> should be portable, easy to handle with low electricity consumption. On reaching 215 C indicator light should be on and unit should be made of high quality glass to withstand such temperature.

S	Itam	Specification	Quant
<b>no</b> 2	Item HYDRO-	The unit should be able to generate high quality oxy-hydrogen fuel for an	<b>ity</b> 1
2	SOLDERING AND	extremely hot and precise reducing flame, perfect for soldering and brazing	1
	WELDING UNIT	in the orthodontic laboratory environment.	
	WEEDING CIVII	The unit should have two separate power stages: One for extensive	
		soldering with gas production of 70-80 litres per hour and the other one for	
		precise soldering work with gas production of 30-40 litres per hour. The	
		mains connection voltage: 230 volts, 50 Hz.	
		The switches should be provided on the front panel of the unit and the unit	
		should have separate work pressure switch and a separate safety pressure	
		switch. Unit should be fitted with pressure gauge to indicate actual gas	
		pressure. Unit should be electronically controlled.	
		The micro torch should have adjustable flow control and changeable	
		nozzles for precise control of the flame and temperature activated auto gas	
		cut off for safety.	
		The unit should include the following:	
		Torch with nozzle and hand piece with flow adjustment.	
		Gas tube	
		Electrolyte solution	
		Lighter for starting flame	
		Stand for the torch	
3	Light cure unit	Light weight portable and cordless curing unit using LED as light source	8
		Built in radiometer /with separate radiometer	
		Autoclavable fibre glass light guide	
		Should have broad band LEDs covering 390-510mm wavelength range	_
		Should have 3-4 curing modes with different light intensity and timer	_
		High performance lithium ion battery with a shorter charging time	_
		Light intensity -1500mw/sq.cm at regular mode and >1500 mw/sq.cm at	
		hyper mode	_
		Possibility of start and stop of emission of light at any moment	_
		Protection from over heating	ı

		TECHNICAL SPECIFICATIONS OF ORTHODONTIC TRACING	
Ì		SOFTWARE:	

		Provisions for complete lateral/frontal/cast analysis with linear and angular measurements  Provisions for customization of own ceph analysis,new points, planes etc  Provisions for creation of movies of intra oral photographs  Provisions to demonstrate pre and post treatment plans  Provisions for high precision, advanced zoom, and should have image enhancement technology including colourisation  Provisions for precise superimposition of photograph over tracing  Provisions for precise superimposition of any number of tracing over tracing with provision of changing color of each tracing  Provisions to allow image export to other applications including power point, word, email, etc  Provisions to complete patient record facility and archival facility  Provisions to demonstrate different profile photographic views with gradual changes at different stages  Able to exchange patient data from one computer to other  Provisions for creating different treatment plans for the same patient in the same series  Upgradable to 3D any time in future(at additional cost)  Not controlled through internet  Able to work independently with multiple computers at the same time	
6	Scanner with transparency adapter	Provision to scan photos and Extra oral and intra oral x-rays( Lateral Cephalogram,PA Views(8"x10") and OPG(6"x12") sizes)  Provision to scan multiple photos at the same time  Easy to use  Able to scan pictures and x-rays without distortion  Windows/Mac compatible  4800x9600 dpi resolution  48-bit or more resolution  Provision to copy, scan, scan to email, scan to PDF	1
7	X-ray viewers	Wall or desk mount Viewing area 15" x 18" Light weight Flicker free illumination 2 tube lights for illumination	12
8	ORTHODONTIC IMPRESSION TRAYS	AUTOCLAVEABLE HIGH QUALITY STAINLESS STEEL HIGH RIM  ANATOMICALLY CONTOURED PERFORATED ORTHODONTIC IMPRESSION TRAYS EACH SET SHOULD HAVE TRAYS OF XL, S, M,L,XL,XXL SIZES	4 sets
9	A) TYPODONT WITH FULL TEETH SET	Should be compact and with fully functional movements Having Provision For Fitting Metal/Acrylic Teeth And Wax Forms In Different Mal-Occlusions For Orthodontic Training	6
	B) ORTHODONTIC TYPODONT METAL TEETH	Teeth Must Be Well Casted And Well Furnished To Simulate The Normal Anatomy Of Human Dentition With Roots With Provision For Banding And / Or Bonding Various Orthodontic Brackets/Molar Tubes Or Other Attachments	06 SETS OF (28 Nos.) EACH
	C) ORTHODONTIC TYPODONT ACRYLIC/PLASTI C TEETH	Teeth Must Be Well Carved And Well Furnished To Simulate The Normal Anatomy Of Human Dentition With Roots With Provision For Banding And/Or Bonding Various Orthodontic Brackets/Molar Tubes Or Other Attachments	06 SETS OF (28 Nos.)

		30	EACH
10	Orthodontic bracket reconditioner/polish er	Provision to Polish arch wires, recondition bands Provision to clean loose bands, polish retainer clasps Provision to activate new bands, clean loose brackets, and clean soldering flux Easy to use and easy to install	1
11	Chair side Sandblaster	Fully autoclavable Featherweight Aluminium head and body Easy to use for both right and left hand users Easy to attach and disconnect Easy to use in hard to reach areas with intra oral use	1
12	Endosonic handpiece	It should be a Piezo Electric Ultrasonic System.  It should be able to perform Ultrasonics and Microsonics for Endodontics and Restorative Dentistry.  Can be used for removing obstructions including calcification of pulp chamber or root canals.  Kit should contain Handpiece ,Endodontic Tips , Microsurgical Tips and Post Removal Tip.	2
13	Mechanized rotary instruments system	Mechanized rotary instruments system  Quantity required – 1  Endomotor should be able to work in continuous rotation as well as reciprocating motion.  Should be versatile and allow various rotary instruments usage.  Various programs for individual settings in continuous rotation	1
14	Mechanized rotary instruments system	Motor handpiece and contra angle (mini contra head with reduction :16:1 or 20:1)  It should be light weight for easy endodontic access and design to minimize fatigue and fingertip stress.  Automatic safety features – foot start/ stop, torque reverse, torque slow down, apical reverse, apical slowdown.  Foot switch for easy operation to use the micromotor/endomotor for root canal preparation.  Flexibility of various speed settings.  Tubing for micromotor	2
15	Autoclave for hand piece sterilization	Table Top autoclave specially designed to clean atleast 6 dental instruments (hand-pieces & turbines), internally and externally, lubricate & sterilize at a time.  Should have provision of pulse wash with cold water & final wash with hot water to effectively remove dirt & bio-film from the hand-pieces.  It should have closed-system lubrication process to prevent release of oil fumes in the clinic during the process.  Should work on back-flush mechanism ensuring that saturated steam is forced through the instruments thereby thoroughly sterilizing the internal channels as well as external parts of the instruments.  It should have four-user selectable sterilization processes:  134°C – 3 min. sterilization (standard program)  134°C – 18 min. sterilization  121°C – 15 min. sterilization	2

		Should have in-built water tank, drainage tank & oil can.	
		Should have built-in water conductivity sensor with automatic alarm to	
		signal deteriorating water quality.	
		Unit must be CE Certified.	
		Please offer suitable compressor. (quote as optional)	
		Essential Accessories:	
		Adaptors for various hand-pieces, please mention list.	
		Oil Can	
		On Can	
16	Apex locators	Ratio based	2
10	Tipex locators	Accurate measurement	
		No zero adjustment	
		Automatic calibration	
		Large colour LCD display	
		Provision for attachment to endodontic motor	
		1 TOVISION FOR actualment to endodonite motor	
17	Equipment for	SuperEndo Alpha for warm vertical condensation	1
	injectable	SuperEndo Beta for backfill	
	thermoplasticized	Accessories	1
	gutta percha		-
18	Equipment for	OBTURA THERMO PLASTICISED GUTTA PURCHA OBTURATION	1
	injectable	DEVICE WITH STANDARD ACCESSORIES INCLUDING:	1
	thermoplasticized	2 sets of Obtura condensers	+
	gutta percha	5 pack of needles	
		3 packs of gutta percha	
		Cleaning solution and cleaning brushes	
10			
19	Pressurized local anesthesia system	computer-controlled local anesthesia delivery consisting of computer-controlled drive unit and a separate single-use disposable handpiece/needle assembly	2
20	Surgical endo kit	Please mention the prices of individual instruments and the collective price of all the instruments separately	1

24	Plaster Dispenser	A built-in dispensing mechanism	4
- '	Traster Bispenser	Outside and inside body made of Stainless steel	† '
		Digital electronic timer	-
		High accuracy.	+
		Ergonomic design.	
		Capacity 10 Kg	
		Capacity 10 Kg	-
25	Haarry Duty Latha	200 4 000 DDM arread rouge	6
23	Heavy Duty Lathe	300 - 4,000 RPM speed range	6
		Constant torque through the entire speed range	
		Quick-change chuck which can be easily mounted	
		Standard dental taper shafts with chuck removers that will accommodate	
		all types of chucks	_
		Industrial grade, sealed ball bearings never need lubrication	
		Base may be bench mounted	
26	Lab Micromotor	It should have feature of easy changeable to knee control or desktop style.	9
		Should have display for showing error code & also with the feature of auto-	
		cruise function to fix the rotation speed during work with foot switch.	4
		Should have dual control like brushless and brush motor.	_
		Speed should be 1000~50,000 rpm with low noise & low vibration.	
		Maximum torque should be of 7.8 ncm	
		Marathon, Kavo, NSK or equivalent	
27	Model Trimmer	It should be heavy duty model	5
	with carborandum		
	disc dry type		
	Please quote the	The unit should be provided with carborandum disc of 10-12".	
	price separately with		
	or without suction		4
		The unit should be finished, inside and out, with a high gloss coating that	
		offers durability, corrosion resistance, and good finish.	4
		Resiliently mounted and precision balanced for smooth, quiet operation	_
		2000-3000rpm	
		Valve for regulating water flow (Optional)	
28	Model Trimmer	It should be heavy duty	6
	with diamond disc		_
1		The unit should be provided with diamond disc of 10-12".	
ļ		The difference of provided with diament disc of 10 12 v	

	dry type	The unit should be finished, inside and out, with a high gloss coating that offers durability, corrosion resistance, and good finish.  Resiliently mounted and precision balanced for smooth, quiet operation 2000-3000rpm  Valve for regulating water flow (Optional)	-
29	PINDEX SYSTEM	Bright laser beam to accurately locate drill position  Clear visibility in all light conditions  Drill automatically penetrates to exact depth  Manual drilling procedure  Plastic housing  Accessories should include complete saw system and pin system with various sizes including sleeves	1
30	High Speed Alloy Grinder With Suction	Fully adjustable, time-saver, heavy duty motor of 1/3 HP, Having self-contained dust collector. Motor of the supplied unit should be UL-recognized and CSA-certified for electrical safety. Equipped with precision high speed automatic spindle, which allows changing tools without stopping the motor. Provided with the feature of 10,000 and 24,000 rpm belt controlled speeds. Dimension (WxLxH) 12"x18"x11", 115 V, 50/60 Hz	1
31	Preheating furnace	Electronically controlled unit with micro-processor and digital display Feature of fume aspiration Memory of >5 cycles Ignition delay upto 100 hours. Max temperature >1000°C Chamber should be size of approx. 36x46x49 cm (wxdxh)	1
32	Motorized casting machine	Require for casting, should be provided with oxi-propane blow torch.  Should be completely built in of stainless steel.  Provided with digital timer to enable the end user to set the centrifuge time and having features of start-up speed adjuster.  Should have two joints arm which should allow user flow & soft start.  Should be already set & balance as it can be work with 1, 3, 6, 9 size of cylinders.  Provided with Cabinet.  Having safety features like self-braking engine so that machine stop working automatically as soon as the door would get opened.  Allow complete operator's safety	1
33	Induction casting machine	User friendly, compact bench top casting machine with high-performance induction heating.  It should have featured as of with high output at low power consumptions.  Induction melting power must be 3.6kVA, 65kHz.  Casting temperature upto 1550°C.  Ideal of all available dental alloys with the feature of heating-level switch, direct cooling with automatic shut-off system, fast adjustment for use of different casting, movable counterweight.  It should provide along with Ceramic melting crucible, graphite inserts ceramic insert and base socket mould former & melting powder	1
34	Ceramic Furnace	Lightweight, user-friendly furnace for all types of ceramic dental restorations, vaccum & atmospheric firing, soldering of ceramic work, crystallization firings etc.  Having feature of touch-screen display with graphics and USB stick connection for loading updates.  Should have auto-adjust temperature feature and having firing temperature of max. 1200°C	2

Should be provided along with the following three kits:     First classic kit having 16 opaque the 16 opaque dentine, 16 dentine, 1 wash opaque, 2 enamel, 1 translucent, 1 window, 3 cervical, 3 neck, 2 corrective, 2 modelling fluid, 1 opaque fluid, 1 shade guide standard, 1 shade indicator classical   Second 30-master kit having 1 wash opaque, 5 opaque, 26 opaque dentine, 26 dentine, 2 enamel, 1 translucent, 1 window, 3 cervical, 5 neck, 2 corrective, 2 modelling fluid, 1 opaque fluid, 1 shade guide standard, 1 shade indicator 3 dan-master, 1 linearguide 30-master.   Third, Stain Kit with 20 stains, 02 glaze powder, 01 glaze liquid, 01 mixing plate, 1 press (40 no.), 01 Mixing it ûp & stain shade guide   Maximum holding time of 150 minutes   Fine blasting device, with integrated LED lighting technology in the handpiece   The blasting device should be provided with filter module.		1	35	1
First classic kit having 16 opaque, 16 opaque dentine, 16 dentine, 1 wash opaque, 2 cannet, 1 translucent, 1 window, 3 cervical, 3 neck, 2 corrective, 2 modelling fluid, 1 opaque fluid, 1 shade guide standard, 1 shade indicator classical  Second 3D-master kit having 1 wash opaque, 5 opaque, 26 opaque dentine, 26 dentine, 2 enamel, 1 translucent, 1 window, 3 cervical, 5 neck, 2 corrective, 2 modelling fluid, 1 opaque fluid, 1 shade guide standard, 1 shade indicator 3d-master, 1 linearguide 3D-master.  Third, Stain Kit with 20 stains, 02 glaze powder, 01 glaze liquid, 01 mixing plate, 1 press (#0 no.), 01 Mixing tip & stain shade guide Maximum holding time of 150 minutes  Fine blasting device, with integrated LED lighting technology in the handpiece  The blasting device should be provided with filter module.  It should have feature of thorough removal of investment and oxides to prevent undesired biological reactions.  It should be of stato g.  Capacity should be of 5400 g.  Filter module:  Should protect against dust during sandblasting  Filter should clean quickly and without any loss of performance.  Switches should be switched ON automatically  Wall-mounted unit for mixing of investment materials, plaster, stump material or duplicating silicone, tabletop stand so as could use as bench unit also.  Having powerful vaccum pump which can be generate vaccum of up to 100mber approx. and having capacity of 20 lmin.  Should provide with transparent vaccum mixing bowls size of 250 to 1200ml and should be fixed to the agitator coupling.  Having feature of electronic timer which controls the mixing time and front panel of the unit having display which shows the current vaccum  Work with ordinary water  Having almomatic pressure control feature with pressure withch Adjustable steam outlet with electro valve cover, having acoustic signal Heating element should be copper coated resistance with brass flange Designed to distribute steam.  Having safety valve, cap, fuse, pressure switch and other security features  Oil-free,			Should be provided with >100 freely definable programs.	4
opaque. 2 enamel. 1 translucent. 1 window. 3 cervical. 3 neck. 2 corrective. 2 modelling fluid, 1 opaque fluid, 1 shade guide standard, 1 shade indicator classical  Second 3D-master kit having 1 wash opaque. 5 opaque. 26 opaque dentine. 26 dentine. 2 enamel. 1 translucent. 1 window. 3 cervical. 5 neck. 2 corrective. 2 modelling fluid. 1 opaque fluid. 1 shade guide standard. 1 shade indicator 3 d-master. 1 linear guide 3D-master.  Third, Stain Kit with 20 stains, 02 glaze powder, 01 glaze liquid, 01 mixing plate. 1 press (80 no.), 01 Mixing in the stain shade guide  Maximum holding time of 150 minutes  Fine blasting device, with integrated LED lighting technology in the handpiece  The blasting device should be provided with filter module.  It should have feature of thorough removal of investment and oxides to prevent undesired belogical reactions.  It should be of 4 chambers for using two other sandblasting modules (investment and oxide be saved in another unit).  Colour coding system should be on the tanks.  Capacity should be 6 saved in another unit).  Colour coding system should be on the tanks.  Capacity should be saved in another unit).  Should have maximum operating safety.  Should provide against dust during sandblasting.  Filter module:  Should provide with a summatically  Wall-mounted unit for mixing of investment materials, plaster, stump material or duplicating silicone, tabletop stand so as could use as bench unit also.  Having powerful vaccum pump which can be generate vaccum of up to 100mbar upprox. and having capacity of 20 l/min.  Should provide with transparent waccum mixing bowls size of 250 to 1200ml and should be fixed to the agitator coupling.  Having feature of electronic time which controls the mixing time and front panel of the unit having display which shows the current vaccum  Boiler capacity of 5 lt. Made of stainless steel and pressure of 4/5 bar Work with ordinary water  Having automatic pressure control feature with pressure switch  Adjustable steam outlet with electro valve cover,			1 0	
2 modelling fluid, 1 opaque fluid, 1 shade guide standard, 1 shade indicator classical Second 3D-master kit having 1 wash opaque. 5 opaque, 26 opaque dentine, 26 dentine, 2 enamel, 1 translucent, 1 window.3 cervical, 5 neck, 2 corrective, 2 modelling fluid, 1 opaque fluid, 1 shade guide standard, 1 shade indicator 3d-master, 1 linearguide 3D-master. Third, Stain Kit with 20 stains, 20 glaze powder, 01 glaze liquid, 01 mixing plate, 1 press (#0 no.), 01 Mixing tip & stain shade guide Maximum holding time of 150 minutes  Sand blaster  Fine blasting device, with integrated LED lighting technology in the handpiece The blasting device should be provided with filter module. It should have feature of thorough removal of investment and oxides to prevent undesired biological reactions. It should be of 4-bambers for using two other sandblasting modules (investment could be saved in another unit). Colour coding system should be on the tanks. Capacity should be of 2-400 g. Filter module: Should have maximum operating safety. Should protect against dust during sandblasting Filter should clean quickly and without any loss of performance. Switches should be switched ON automatically  Wall-mounted unit for mixing of investment materials, plaster, stump material or duplicating silicone. Having powerful vaccum pump which can be generate vaccum of up to 100mbar approx. and having capacity of 20 Irmin. Should provide with transparent vaccum mixing bowls size of 250 to 1200m and should be fixed to the agitator coupling. Having feature of electronic timer which controls the mixing time and front panel of the unit having display which shows the current vaccum  Boiler capacity of 5 lt. Made of stainless steel and pressure switch Adjustable steam outlet with electro valve cover, having acoustic signal Heating element should be expert courter feature with pressure switch Adjustable steam outlet with electro valve cover, having acoustic signal Heating element should be provided for outloor final have.  Auto bed air release valve/daria va				
Second 3D-master kit having I wash opaque, 5 opaque, 26 opaque dentine, 26 dentine, 2 enamel, 1 translucent, 1 window, 3 cervical, 5 neck, 2 corrective, 2 modelling fluid, 1 opaque fluid, 1 shade guide standard, 1 shade indicator 3d-master. I Interaguide 3D-master. Third, Stain Kit with 20 stains, 02 glaze powder, 01 glaze liquid, 01 mixing plate, 1 press (49 no.), 01 Mixing tip & stain shade guide Maximum holding time of 150 minutes    Sand blaster			opaque, 2 enamel, 1 translucent, 1 window, 3 cervical, 3 neck, 2 corrective,	
Second 3D-master kit having I wash opaque, 5 opaque, 26 opaque dentine, 26 dentine, 2 enamel, 1 translucent, 1 window, 3 cervical, 5 neck, 2 corrective, 2 modelling fluid, 1 opaque fluid, 1 shade guide standard, 1 shade indicator 3d-master, 1 linearguide 3D-master.			2 modelling fluid, 1 opaque fluid, 1 shade guide standard, 1 shade indicator	
26 dentine, 2 enamel, 1 translucent, 1 window, 3 cervical, 5 neck, 2 corrective, 2 modelling fluid, 1 posque fluid, 1 shade guide standard, 1 shade indicator 3d-master, 1 linearguide 3D-master.  Third, Stain Kit with 20 stains, 02 glaze powder, 01 gaze liquid, 01 mixing plate, 1 press (49 no.), 01 Mixing tip & stain shade guide  Maximum holding time of 150 minutes  Sand blaster  Fine blasting device, with integrated LED lighting technology in the handpiece The blasting device should be provided with filter module. It should have feature of thorough removal of investment and oxides to prevent undesired biological reactions. It should be of 4 chambers for using two other sandblasting modules (investment could be saved in another unit). Colour coding system should be on the tanks. Capacity should be of 3400 g. Filter module: Should have maximum operating safety. Should protect against dust during sandblasting Filter should clean quickly and without any loss of performance. Switches should be switched ON automatically  Wall-mounted unit for mixing of investment materials, plaster, stump material or duplicating silicone, tabletop stands oa a could use as bench unit also. Having powerful vaccum pump which can be generate vaccum of up to 100mbar approx, and having capacity of 20 l/min. Should provide with transparent vaccum mixing bowls size of 250 to 1200ml and should be fixed to the agitator coupling. Having feature of electronic timer which controls the mixing time and front panel of the unit having display which shows the current vaccum  Boiler capacity of 5 lt. Made of stainless steel and pressure switch Adjustable staem outlet with electro valve cover, having acoustic signal Heating element should be copper coated resistance with brass flange Designed to distribute steam.  Having safety valve, cap, fuse, pressure switch and other security features  Boiler capacity of 5 lt. Made of stainless steel and pressure switch Adjustable steam outlet with electro valve cover, having acoustic signal Heating element should b

100mbar approx. and having capacity of 20 l/min.			1	
Should provide with transparent vaccum mixing bowls size of 250 to 1200ml and should be fixed to the agitator coupling.  Having feature of electronic timer which controls the mixing time and front panel of the unit having display which shows the current vaccum  Boiler capacity of 5 lt. Made of stainless steel and pressure of 4/5 bar Work with ordinary water  Having automatic pressure control feature with pressure switch  Adjustable steam outlet with electro valve cover, having acoustic signal Heating element should be copper coated resistance with brass flange Designed to distribute steam.  Having safety valve, cap, fuse, pressure switch and other security features  COMPRESSOR  Oil-free, Medical Grade, Mono-bloc 1.00 HP. It should have:  Air moisture filter.  Epoxy coating to prevent rusting  Pressure gauge and auto cutoff switch  Tank should have a capacity of minimum 35 litres.  Auto head air release valve/drain valve.  The provision for drainage of water from the base tank of compressor.  It should give medical grade air which is absolutely oil free.  Safety Release Valve.  1200-1500 rpm & 230 V/ 50HZ  There should be provision and facilitation for indoor and outdoor installation (cover be provided for outdoor installation).				
1200ml and should be fixed to the agitator coupling.				-
Having feature of electronic timer which controls the mixing time and front panel of the unit having display which shows the current vaccum  Boiler capacity of 5 lt. Made of stainless steel and pressure of 4/5 bar Work with ordinary water Having automatic pressure control feature with pressure switch Adjustable steam outlet with electro valve cover, having acoustic signal Heating element should be copper coated resistance with brass flange Designed to distribute steam. Having safety valve, cap, fuse, pressure switch and other security features  Oil-free, Medical Grade, Mono-bloc 1.00 HP . It should have:- Epoxy coating to prevent rusting Pressure gauge and auto cutoff switch Tank should have a capacity of minimum 35 litres. Auto head air release valve/drain valve. The provision for drainage of water from the base tank of compressor. It should give medical grade air which is absolutely oil free. Safety Release Valve.  1200-1500 rpm & 230 V/ 50HZ There should be provision and facilitation for indoor and outdoor installation (cover be provided for outdoor installation).				
Steam cleaner   Boiler capacity of 5 lt. Made of stainless steel and pressure of 4/5 bar   Work with ordinary water   Having automatic pressure control feature with pressure switch   Adjustable steam outlet with electro valve cover, having acoustic signal   Heating element should be copper coated resistance with brass flange   Designed to distribute steam.   Having safety valve, cap, fuse, pressure switch and other security features      COMPRESSOR   Oil-free, Medical Grade, Mono-bloc 1.00 HP . It should have:-   Air moisture filter.   Epoxy coating to prevent rusting   Pressure gauge and auto cutoff switch   Tank should have a capacity of minimum 35 litres.   Auto head air release valve/drain valve.   The provision for drainage of water from the base tank of compressor.   It should give medical grade air which is absolutely oil free.   Safety Release Valve.   1200-1500 rpm & 230 V/ 50HZ   There should be provision and facilitation for indoor and outdoor installation (cover be provided for outdoor installation).

	kit	various parts of the root canal	l
	Kit	Made up of titanium or stainless steel	
		Please mention the price of refills separately	
40	Dyshib on done lyito	Contents of the douted by should be a with an dour manch with an dour	2
40	Rubber dam kits	Contents of the dental kit should be a rubber dam punch, rubber dam forceps of high quality of stainless steel that are autoclavable.	3
		Autoclavable plastic dam frame template 6"x 6" (152mm x 152 mm).	
		There should be winged clamps . 9 or 10 in number.	
		A dental dam stabilizing cord pack	
		Ready cut rubber dam sheets box containing 30-36 sheets of 6"x 6"	
		medium rubber dam natural latex rubber and gauge of 0.007-0.009	
		inches	
		Dental dam napkins for patients sensitive to latex and better saliva	
		absorption and a manual for dental dam application.	
		All components of the rubber dam kit should be CE certified	
41	Magnification	Advanced vision enhancement System.	
71	loupes	Light weight binocular loupes with multifunctional capabilities.	
	Toupes	Multicoated precsion lenses for clarity and reduced reflection.	
		Fully adjustable viewing angle, pupil distance and light weight	
		(titanium) frame size medium/large.	
		Package should include a carry case in aluminum, light weight frame,	4
		side shields, head band, microfibre cloth, screw driver, calibration	
		target.	
		Loupes with retainer straps, with magnification 2.5 or 3.5 times.	
		There should be an interpupillary knob, height adjustment lock screw,	
		height adjustment rail, lumin assembly, view angle hinge, flip up handle.	
		Additional requirements- trendy frame, clear lens covers, head band, lamp	
		(LED) head light, rechargeable power	
		Illumination = 40000 lux	
		LED operating life = 50000 hours	
42	Intra oral camera	The equipment should have the following:	5
		Should be USB Compatible	
		- Should not require separate video display cards	
		1 1	
		- Should have handpiece not more than 50 grams weight - Lightweight,	
		portable and easily transferable between operatories	
		- Should have Universal fixed focal range delivering clear, crisp images	
		- Should be progressive scan CCD Sensor	
		- Should have focus range of 5-45 mm providing ability to capture images	
		from extreme close-up to full arch without focal adjustment	
		- Should have 8 high quality LEDs to provide superb image clarity and	
		color	
		- Should have USB cable length of 5 meters	
		- Should have easy reach inside the mouth with contoured and smooth	
		edges of the camera handpiece	
		- Should have integrated frame capture button	
		- Should have facility for detaching the cable from the handpiece	
		- Should have advanced noise-free electronics and increased imager	
			ı
		sensitivity contributing to better image quality

110	Bone Graft	Sterile, biocompatible	2 Pkts
	materials	Synthetic bone graft containing β- tricalcium phosphate	
		Available IN 1- 0.8cc sterile syringe	
		Granule size: 0.5- 1mm	
		Sterile, biocompatible Xenogenic demineralized bone graft containing	
		collagen type1	3 Pkts
		Available in a pack of two 0.25 gm sterile vial	
J			

		<b>41</b>	l
		Osteoconductive, resorbable, highly crystalline material comparable to	
		natural bone	2 Pkts
		Containing no α/β tricalcium phosphates amorphous phases, or bone-	
		inhibiting pyrophosphates	
		Synthetically derived non-ceramic bone graft material	
		Available in crystalline form (300-400 microns) 0.75 gm vials.	
		11 variable in erystamine form (200 100 interems) on 2 gin viais.	
		Osteoconductive, resorbable material	
		Containing Type 1 collagen with calcium sulphate	
		Resorption within 6-8 weeks	
		1	
		Easy to use, moldable	
		dough like consistency	
		Available in a pack of two 0.25 gm vials	
		Absorbable collagen membrane containing Type 1 collagen of xenogenic	2.51
		origin	3 Pkts
		Purified using a patented American technology	
		Stored at 4-40 degree Celsius	
		30×40 mm per vial	
111	Splinting Material	Made of fibre glass	2
	- L 1.1moilai	Thickness app. 0.35mm	1
		Binds to both composite and acrylic	
		Multi-flex orthodontic wire	
		With the A of thoughtie wife	
112	Dental Iontophoresis	A battery-operated dentist-held device	1
	Unit	, ,	
		9 volt battery	
		Ammeter with graduations ranging from 0 to 5 mA at differences of 0.05	
		mA	
		Voltmeter from 0 to 10 volts	
		Variable resistance	
		Polarity selection switch	
		An on/off switch	
		A patient-held grounding device,	
		An electrically conductive cord connecting the two devices.	
		An electricarry conductive cord connecting the two devices.	
113	Refrigerator	Double door	2
115	Remigerator	Capacity of 230 lit	_
		Automatic defrost	
		De-odorizing system	
		5-Star energy rating	
		Stablizer free voltage control	
		LED light system	
		Fire retardant wires	
			_
114	LCD projector	Screen Size - 4 meters diagonally	7
		Aspect Ratio - 4:3	
		Computer Compatibility - VGA /SVGA/ XGA/ SXGA	]
		Video Compatibility- PAL/SECAM/ NTSC	
		Projection Lamp - UHP/ METALHALIDE / NSH – LAMP. Details of lamp	
		to be furnished in the offer	
		Lamp Life - 2000hrs Minimum If offered models are with lamp life less	1
		than '2000 hours, additional lamps to achieve lamp life 2000 hrs.	
		(Minimum)	
		Lamp hour counter - To be built -in	
		Brightness- 3500ANSI Lumens or higher	-
		Districted 3300/11/01 Duffello Of Higher	]
		Throw Distance (Range) - Should cover 2 meters-10 meters from screen	

		42	
		Audio System Minimum - 1.0 watt RMS with built-in speaker	
		Zoom! Focusing - Lens Zoom 1:1.2 or higher, Motorized Zoom & Focus	
		(Controlled by a Remote)	
		Remote Control - Remote control unit for PC and Mouse with inbuilt laser pointer	
		Terminals ports with connectors (Input/output) - Video IN, S Video IN,	
		RGBIN, Audio IN, RGB Out, external RGB multiplexer	
		Connectivity for remote mouse (to be specified by bidder)	
		Power Consumption – 260-280 W Max (to be specified by bidder)	
		Contrast Ratio - 260: I or higher	
		PCMCIA card slot with card.	
		Native resolution - 1024x768Color Pixels Minimum	
		Intelligent resizing - I280x1024	
		Key stone/Lens shift – Digital (±15 degrees horizontal and vertical)	
		Wireless Connectivity between PC and projector, storage media port and wireless LAN connectivity (wherever specified) – Through integrated port	
		in the projector only	
		Packing - Hard case high Impact, durable case for LCD Projectors	
		0.5-1.0 inch XGA Panel	
		Manufacturer should be ISO certfied for quality standards.	
		Should be BIS approved product	
		Power input to be 220-240VAC, 50Hz fitted with Indian plug  The unit shall be capable of being stored continuously in ambient	
		The unit shall be capable of being stored continuously in ambient	
		temperature of 0 -50deg C and relative humidity of 15-90%  The unit shall be capable of operating in ambient temperature of 20-30 deg	
		C and relative humidity of less than 70%	
		Standard accessories, power cord, RGB cable, Video Audio Cable,	
		Component Cable PS/2 mouse cable, remote controller	
		Replacement lamp (Optional Accessories)- One spare replacement lamp of	
		life 2000 hours to be provided (cost to be indicated separately in the offer)	
		Ceiling mount brackets (Optional Accessories) To be provided (cost to be	
		indicated separately in the offer)

125	Duplicator	-Electronically controlled heating, cooling and keeping the temperature	1
		constant.	
		-Programmable, timer –controlled melting of duplicating gel.	
		Digital display, providing information on the relevant processing	
		parameters. Technical data:-	_
			_
		Capacity:- 3 kgs. (Approx)	
		Voltage -230 V	
		Frequency -50-60 Hz	
		Accessories:	
		1.Duplicating flask- Qty 1 piece –made of plastic	
		2.Duplicating gel	
126	Burn-out furnace	-Microprocessor controlled temperature regulation with digital display.	1
		-Maximum pre heating temperature 1000 degrees C approx.	
		-Programmable for up to 100 hrs approx.	
		-programmable heating rate, linear rate of 1-10 degrees C per heat	
		-No. of programmes: at least 5	
		-Electric power supply 220/240 V,50-60 Hz.	
127	Spot welders	-spot welders with current pulse up to 2000 Amps.	5
		-Variable welding settings.	
		-provision for continuous soldering.	
		-Stand- by mode with power saving device.	
		-provision for fault detection signals of over-heating /wrong electrodes	
		selection, system problems etc.	
		-provision for foot switch control as well as hand operation.	
128	Wax heater	-portable	2
		-voltage:	
		110V/60Hz +/- 10%	
		220V/50Hz +/- 10%	
		-power approx. 60Watts.	
129	PKT set	Stoma or Equivalent	6-set
12)	( wax carver)	Stoma of Equivalent	0 300
130	Magnifying work		
130	lamp		
131	Ultrasonic cleaner	-should be stainless steel tanks enclosed in a durable aluminium housing,	7
131	Offiasoffic cleaner	water resistant construction.	/
		-should have a heater on/off switch.	
			_
		-power balanced circuitry.	
		-Rapid start - up for instant cleaning power internal thermal cut off.	
122		-min capacity 13 liters with mesh bucket	1
132	Composite curing unit	-high temp. Nitrogen pressurized unit for curing of indirect composite restorative materials.	1
	umt	-temp.of approx 135-140 degrees C and 60 psi pressure.	
		-dimensions of approx. height 15 cm width 30 cms depth 25 cms	_
		-weight about 8-10 kgs.	_
		-Electrical rating 220 V, 50-60 Hz.	
122	Corre	-power 540 Watts	
133	Geyser	ISI mark with 35 liters capacity	5

259	Self Retaining Mastoid Retractor	3 or 4 Slightly curved Blunt prong, Legnth: 4",5",6"	1 each
260	Browne Lingual Flap Retractor	Concave blunt blade, Length: 6½"	1 each
261	TMJ Retractor D/E	6 x 10mm, Concave blunt blade, Length:8"	1 each
262	Condyler Alveolar Retractor	Blunt double fork blade, Legnth: 9", with Round Finger Handle	1 each
263	Rowe Orbital Floor Retractor	Radial blunt floor with hollow handle, Lefth & Right	1 each
264	Superior Ramus Separater	Serrated 3 blade, Auto reverse Parallel closing, Legnth:9"	1 each
265	Soft Tissue Retractor - Reverse Lengenback	Right angle with upward curved blade, Length: 8½", with Round Finger handle	1 each
266	Soft Tissue Retractors Cd. Up & Down - Small & Big	Right angle with concave blade, Length:9", Length: 9", with Round Finger handle	1 each
267	Minnesota Retractor	Semi Sharp Round Tip	1 each
268	SENN D/E Retractor	4 Semi blunt Prong, Length : 6"	1 each
269	RAGNELL Retractor	6mm Concave Blade	1 each
270	Maliniac Nasal Retractor	120* Conic Shape Blade, Length : 5½"	1 each
271	Sigmoid Notch Retractor	Concave blade with blunt edge, Scoop type Tip, Length: 81/2"	1 each
272	Spina Nasalis Retractor	U' Shape pointed tip, Length : 9" with Round Finger handle	1 each
273	Intraoral Retractor	Blunt round tip with thick handle, Length: 9½"	1 each
274	Plastic Cheek Retractor Small & Big	Transperent autoclavable plastic	1 each
275	Monks Tissue Retractor	Serrated Tip with concave blade, Length: 8"	1 each
276	Endoscopic Scalp Retractors 3 Sizes	8mm Semi sharp round tip, Length: 10"	1 each
277	Nasal Retractor	Conic shape blade with 'U' tip, Length : 9"	1 each
278	Ramus Retractor	Blunt Edges, Depth - 3" (75mm), 20,25,30mm Blade	1 each
279	Mandibular Rim Retractor	Double fork convave blade with blunt edge, Length: 8½"	1 each
280	Mcdonald Dissector	6mm Straight & Curved Tip, Length: 7½"	1 each
281	Dental Elevator	Serrated T handle, Length: 4", Left & Right	1 each
282	Ward Periosteal Elevator - Fan shape	6mm Sharp round angular tip, Length: 7"	1 each
283	Periosteal Elevator - fibre handle	3½" Shaft Length Various Shape	1 each
584	Bristow Elevator Fine	10mm tip Width, Gradual curved semi sharp tip, Length: 9"	1 each

		5	l
685	Cryer Elevator with handle	Hollow Handle Thick Pointed Tip, Left & Right	1 each
786	Cryer Elevator (Cross Bar Elevator)	Serrated T handle, Thick Pointed Tip , Length : 4" Left & Right	1 each
887	Warwick James Elevator	Length: 6½", Left & Right, Straight	1 each
288	Rowe Zygomatic Elevator	8mm & 12mm Blade Width, Blunt tip,	1 each
289	Kilner Zygomatic Elevator	Blade width -8mm, Length : 6½"	1 each
290	Farabeuf Rugine - S/E	Width - 5mm to 7mm, Length:6", Straight & Curved	1 each
291	Howarth Elevator	Width - 5mm (sharp end), Length:9"	1 each
292	Periosteal Elevator - D/E	St. & one cd. End, Width - 8mm, Length:7"	1 each
293	Mallar Elevator	8mm Round Blade, Length:9"	1 each
294	D/E Dissector Probe	Round & Flate Tip, Length:7"	1 each
295	Septum Elevator D/E	Center groove, Length:7"	1 each
296	Periosteal Elevator Sharp & Blunt End	Width - 6mm, Length: 7"	1 each
297	Key's Fine Elevator	6mm wide Tip, Length:7"	1 each
298	D/E Alveolar Dissector	Semi sharp 6mm wide Tip, Length:8"	1 each
299	Hajeck Septum Elevator	'V Shape cut tip, Length:6"	1 each
300	Coupland Elevator	3 & 4mm Tip, Thick Fibre Handle, Length:6½"	1 each
301	Molt Elevator	6mm Round Tip , Length:7"	1 each
302	Cottle Elevator	6mm Round Tip, Graduated, Length:8"	1 each
303	Root Tip Elevator D/E	Sharp pointed double ended, Length:7"	1 each
304	Zygomatic Bone Awl with fibre handle	Pass 24G Wire, 6", 8" Long	1 each
305	Mandibular Bone Awl Set of 5	5 diff. Shape awl, Length:6"	1 each
306	Kelsey Fry Bone Awl with Ring Handle	Sharp point with hole, WL - 3", pass 24G wire, Length:6½"	1 each
307	Kelsey Fry Bone Awl with Fibre Handle	Sharp point with fibre handle, slightly cd. WL- 3", pass 24G wire, Length:7"	1 each
308	Harrison Bone Hook with fibre handle	Blunt round hook , Small & Big Size, Length:7"	1 each
309	Gillies Skin Hook - flat & Round Handle	Round - Knurling handle, Flat - plain handle & sharp round hook, Length:7"	1 each
310	Iliac Crest Awl - set of 3	To fit in one handle, Center hole eye, Poited, WL- 4', Length:5"	1 each
311	Kilner Skin Hook	Sharp skin hook with nurling handle, Length:6"	1 each
312	Double (Mcindoe) Skin Hook	Sharp double prong, round knurling handle,Length:5½"	1 each
313	poswillo Malar hook	Thin Pointed Round hook	1 each
314	Harrison Tendon Hook	Right angle Blunt point hook	1 each
315	Stacey Zygomatic Bone Hook	Blunt round hook with 'T' Handle, Length:6"	1 each
316	Bone Cutter D/A & S/A	Sharp edge, No gap in jaw, 5½", 7½", 9" - Long	1 each
317	Bone Nibbler - D/A & S/A	Sharp edge, No gap in jaw, 5½", 7½", 9" - Long	1 each
317		Sharp edge, No gap in jaw, 5½", 1½", 9" - Long	1 6

318	Strong Bone cutter D/A	Sharp cutting sightly curved edge, 11"	1 each
319	Doyen's Rib Shear	Sharp cutting edge	1 each
320	Rib Cutter	Sharp cutting edge, Thin outer jaw,Length:9"	1 each
321	Rib Raspatory	Semi sharp edges, Oval round shape, Left & Right	1 each
322	Fine Gouge St.	Sharp parallel edge, 2mm To 10mm, Length:6"	1 each
323	Tessier Osteotomes	5mm to 30mm blade width, Very sharp edge, Hexagonal handle, Length:8"	1 each
324	Fine Osteotomes	Sharp parallel edge, Tip Width 2mm To 10mm,Length:61/2"	1 each
325	Fine Chisel	Sharp parallel edge, Tip Width 2mm To 10mm, Length:6"	1 each
326	Cottle Osteotomes (Halfmoon)/Mcindo e Nasal Chisel	Half Moon Shape with blunt point & sharp edge, Length:7½"	1 each
327	Ward Osteotomes Square handle	Sharp parallel edge, Size 2mm To 10mm,Length:7"	1 each
328	Nasal Septum Osteotome with guard	Blunt guard point with sharp 'U' Shape Calibrated Blade, Length:7"	1 each
329	Nasal Chisel with Guard - L & R	Blunt guard with sharp cutting edge, slightly curved, Size 4,5,6,8mm, Length:6½"	1 each
330	Ramus Stripper	Half Moon Shape with blunt point, sharp edge Angular, 8mm Wide	1 each
331	Pterigoidous Chisel	Sharp parallel curved edge, Serrated Head, Size 6,8,10,12mm, Length:9"	1 each
332	Mandibular Border Stripper	Sharp curved edge, Size: 5,7,9mm, Length:8"	1 each
333	Rhinoplasty Wall Osteotomes	Sharp edge with blunt guard	1 each
334	Bone Grafting Gouge with fibre handle - Cd.	Sharp parallel edge, Slightly curved, 2mm To 10mm, Length:6"	1 each
335	Volkman Bone Scoop D/E	Sharp scoop edge with diff. end,Length:6"	1 each
336	Read (Exner) Currettes	Sharp currette edge, St. Left & Right, Length:61/2"	1 each
337	Luccas Currettes D/E	Semi sharp slightly curved, tip strength	1 each
338	Bone Scoop - D/E - Angled	Sharp edge, Diff. side at both end, 1mm To 6mm, Length:7"	1 each
339	Bone Scoop with fibre handle	Sharp edge, 1mm To 6mm	1 each
340	Kilner Dott Mouth Gag	2 adj. Upper blunt hooks with 3 diff. fenestrated blades, Length:7"	1 each
341	Doyen Mouth Gag	Serrated curved blade, Adult & Paediatric	1 each
342	Dingman Mouth Gag	Frame with spring on upper & lower bar, 2 adj. Cheek Retractors, 2 adj. Upper blunt hooks & with 3 diff. fenestrated blades, Frame size - 5" x 3", Size: Adult, Length:7"	1 each
343	Dingman Mouth Gag	Frame with spring on upper & lower bar, 2 adj. Cheek Retractors, 2 adj. Upper blunt hooks & with 3 diff. fenestrated blades, Frame size - Size: Paediatric, Length:6"	1 each
344	Davis Boyle Mouth Gag with five blades	Half round blunt hook frame with solid serrated blade, Length:7"	1 each
345	Heister Jaw Opener S.S.	Tappered serrated Tip with 'T' Handle Lever, Smooth opening, Length:5½"	1 each
346	Heister Jaw Opener with Spring	Tappered serrated Tip with 'T' Handle Lever with reverse action	1 each
347	Ferguson Mouth Gag - Adults	Serrated Angular Jaw and Double Nut Speed Lock	1 each
348	Cleft Palate Raspatory (Franch Pattern type)	Blunt tip, Serrated round handle, Left & Right, Length:51/2"	1 each
349	Cleft Palate Raspatory (Barsky type)	Curved upward , Left & Right, Length:51/2"	1 each

350	Cleft Palate	Curved upward & Downward, Length:6"	1 each
	Raspatory	3, 3, 3, 3, 3, 3, 3, 3, 3, 3, 3, 3, 3, 3, 3, 3,	1 Cacii
351	McIndoe Cleft Palate Raspatory D/E	Semi sharp hook, Left & Right side end , S/M/Length, Length:6"	1 each
352	Barsky Pharyngeal Flap Elevator D/E	Blunt edge, round tip	1 each
353	Mitchell Trimmer D/E	Sharp tip at one end, semi blunt elevator at other end, Length:7"	1 each
354	Cleft Palate Knife Triangular	90* bent Triangular both side Sharp edge, Length:7"	1 each
355	Cleft Palate hook - Right Angle	Semi Sharp single hook with thin handle, Length:7"	1 each
356	Cleft Palate hook - Down bent - Single prong	Semi Sharp single hook with thin handle, Length:6"	1 each
357	Cronin Cleft Palate Elevator	Left or Right bend, Hocky Stick Shape, Blunt edge, S/M/Length, Length:6½"	1 each
358	Palate Dissector fibre handle	Half round blunt edge,Left & Right, Length:7"	1 each
359	D/E Spoon Shape Elevator	Semi Sharp Double ended edge, Length:7"	1 each
360	Miller Bone File D/E	Fine serration, Semi sharp, Slightly curved, Length:7"	1 each
361	Elevator D/E Angle Right & Left	Blunt edge, Slightly curved, Length:61/2"	1 each
362	Angle to Side & Flat	Blunt edge with one right side & other flat up side ,Length:6½"	1 each
363	Carbon drill Bits	1,1.5,2mm x 3"	1 each
364	S.S.Drill Bits for Hand drill	1,1.5,2mm x 3"	1 each
365	Coated Drill Bits for M.M.	1,1.5,2mm flute dia. X 2.3mm shaft dia. Length At least 65mm(21/2"), Flute length Atleast 20mm	1 each
366	S.S.Drill Bits for M.M.	1,1.5,2mm flute dia. X 2.3mm shaft dia. Length At least 65mm(21/2"), Flute length Atleast 20mm	1 each
367	S.S.Drill Bits for M.M.	1,1.5,2mm x 100mm length	1 each
368	Schanz Pins	1.5,2,2.35 & 2.5mm x 3" or 4"	1 each
369	Intraoral Distractor for Mandible	2mm hole dia., Distraction Length 10mm TO 25mm, Left & Right	1 each
370	Intraoral Distractor - Vertical - for Alveolar	2mm hole dia., , 2+2 & 3+3 Holes	1 each
371	For Maxilla L & R	2mm hole dia.	1 each
372	External Mandibular Distractors - Uni- directional	2.35mm hole dia. 4" Long	1 each
373	Bi-directional	2.35mm hole dia. 4" Long	1 each
374	External Fixator for Finger	1.5 & 2mm hole dia. 3" or 4" Long	1 each
375	Screw Driver for Intraoral Distractors	Length:6"	1 each
376	Screw Driver for External Distractors	Length:6"	1 each
377	S.S.Box for Skin Grafting Handle	Length:121/2"	1 each
378	S.S.Box for Max Kit with 2 trays	8½" x 5½"	1 each
379	S.S.Box for Bone Plates & Screws - Big		1 each

380	S.S.Box for Bone	1.5,2,2.5mm, 3½" x 2½"	1 each
	Plates & Screws - Small		
381	S.S. General	Multiple holes, 5" x 10½"	1 each
	Instrument Box with		
	tray - Small		
382	Medium	6" x 12"	1 each
383	Big	5½" x 13½"	1 each
384	S.S.Box with 12	5½" x 3½"	1 each
	Containers for		
	Screws & Plates		
385	Drill Bit Container		1 each
386	K.Wire Container	Silicon Rubber at both end, 6",9",12",16" & 20" Long	1 each
387	Screw Container	Length: 1½"	1 each
388	Plate Container	Length:2½"	1 each
389	S.S.General	Total Length 5" x 8", Single Mate	1 each
	Instrument Box with		
	Silicone Mate small		
390	Big	Total Length 9" x 8", Double Mate	1 each
391	Malt Rasp	deep downward serration 8" Long	1 each
392	Bone File/Nasal	Diff. Sharp Serration at both end, Length:8"	1 each
	Raspatories D/E		
393	Killien Nasal	Tapperred Holo jaw with spring handle, Length:6"	1 each
	Speculum		
394	Tendon Tunnelling	Serrated fine jaw without gap, 8",10" Long	1 each
	Forceps		
395	Tendon Stripper	4,5,6mm tip dia., Semi sharp tip 16" Long	1 each
396	Cartilage Crusher	Solid tuff serrated lever,	1 each
397	Gigli saw Export	Length:20"	1 each
	Quality		
398	Gigli Saw Handle in	Length:3½"	1 each
200	pair		4 1
399	Gigli Saw Guide		1 each
400	Transbuccal Device	One Cheek Retractor, Two Drill Sleeve & Trocar,	1 each
401	Tessier Maxillary	Serrated Rectangular Tip, Left & Right, Length:7"	1 each
402	Mobiliser	Cham ados Chuight I oft & Dight I anoth 71/"	1 2224
402	Nasal Saw	Sharp edges, Straight, Left & Right, Length: 7½"	1 each
403	Finger Saw Tessier Bone	downward sharp cutting edge, Length:8"	1 each
404		Blade width 8mm, 6" Long	1 each
405	Spreader Fickling Dental	Diff. Size Head at both end, Flat surface, Length:9"	1 each
403	Mallet	Diff. Size fread at both clid, Flat sufface, Length.9	1 Cacii
406	Nylon faced	Flat Nylonfaced Surface, 8½"	1 each
400	Hammer - Small	That hyromacca Surface, 6/2	1 Cacii
407	Traininer - Sinan	Length:9"	1 each
407	- Medium	Lengui.)	1 Cacii
408	1110010111		1 each
100	- Big		1 Cacii
409	K.Wire Introducer	hold 1mm to 2mm K.Wire, Length:5"	1 each
410	Wire Twisting	Serrated Jaw with No gap, hold up to 30G Wire, Length:6"	1 each
110	Forceps - Thick	gap, note ap to 500 time, Donguito	1 Cucii
411	Wire Twister -	Length:5"	1 each
	Pencil Type		- 500011
412	Calipers -	Length:3"	1 each
	Castrovijeo		
413	Skin Graft Measure	Diff. Working Width at four end, 6" x 4"	1 each
414	Wire Cutters - S.S.	Cutting capacity Max.24G, Min.30G, No gap in jaw, With spring,	1 each
	XL Qyality	Length:5"	
415	Top End	Cutting capacity Max.24G, Min.30G, No gap in jaw, With spring	1 each
416	Arch Bar Cutter	Length:6"	1 each
417	Mini Plate Cutter	Cut 1.5, 2, 2.5mm Plates, 8" Long, Length:11"	1 each
	with Alu.Handle		

418	K.Wire Bender/Cutter/Plier - Big	Max.cutting capacity 2mm, Wire bent at 90*, 2mm hole at the tip	1 each
419	K.Wire Bender/Cutter/Plier - Small	Max.cutting capacity 1.5mm, Wire bent at 90*, 1.5mm hole at the tip, Length:6"	1 each
420	Wire Mesh Bender Suction cannula - Mastoid	Smooth round head & deep scoop in jaw, Blunt, Length:8" With Cannula Cleaner, No 1,2,3,4,5,6, Length:8"	1 each 1 each
422	Suction cannula - Syringe Fit	No.2,3,4,5, Length:9"	1 each
423	Tongue Depressor - Fenestrated	Front blade width - with hole	1 each
424	Serrated	Front blade width -	1 each
425	Bone Trephine - 'OM' S/M/L	Blunt Outer Sleeve, Sharp Serrated Inner Sleeve, Flat graft pusher. S/M/L, Length:9"	1 each
426	Drill/ Screw/wire Gauge Scale	6" Long	1 each
427	Mouth Prop Set of 3	Semi hard Small, Medium, Large Size Rubber Block with Chain	1 each
428	Scalers Set of 8	Sharp pointed edge, diff. shapes,	1 each
429	Lipo Suction Cannula	3mm,4mm,5mm & 6mm dia., Multiple Holes, Cannulated Handle, 15", 18"	1 each
430	Templet for Recon.Plates	o.6mm thickness, Width & length as per Recon.Plates, Length:6½"	1 each
431	Skin Grafting Handle (Humby's Knife)		1 each
432	MULTIPARAMET		1
2	ER MONITOR	High resolution EL/color graphical display at least 9"size.	-
	Lit MOI VII OI	On off via front panel switch with system control via front mounted	
		buttons or touch panel.	
		Built in battery with capability to run monitors for at least 30 min.	
		Should run mains AC supply of 220 V AC without external	
		transformers/CVT.	
		Interface capability with other monitors and central monitoring station.	
		Facility for storing and displaying trends.	
		Full function audio and visual alarms.	
		Facility for monitoring ECG, SpONIBP, pulse and temperature	
		simultaneously.  ECG:	
		Heart rate range :35- 250 bpm	
		Leads: 1, 11, 111	
		Gain: 0.5-2 mV/cm	
		Defibrillator protection: yes	
		Input impedance:>10 M ohms	4
		NIBP: For adult as well as pediatric / infant patients.	
		Range :30 to 250 mm Hg for adults	
		25 to 80 mm Hg for pediatrics	
		1.5 to 3.5 mm Hg for infant	
		b) :_+5 mm Hg	
		c) Display of systolic, diastolic and mean arterial pressure. d) Manual and auto modes of measurement ranging from 1	_
		to 90min.  11. Pulse oximetry:	_
		a) SPO2 range: 40 to 100%	-
		Resolution: 0.1%	
		Pulse rate: 30-240bpm	
		Invasive BP monitoring (for CVP measurements also).	1
		Reusable pressure transducer (2).	1
		Rang: -40 to 320mm Hg.	1
		Optional modules – to be quoted separately.	1
I	1	Transmitted to be quoted separately.	

1	İ	56	1 1
		Respiration.	_
		Method: impedance measurement.	_
		Accuracy: _+2%	
		Sensitivity: 2-6 ohms	
		Range: 4-125 breaths/min.	
		Temperature:	
		Range: 20 to 45deg C	
		Accuracy: _+ 0.1deg C	
		EtCO2:	
		Method: side stream / mainstream with IR absorption.	
		Accuracy _+ 3mm Hg	
		Rang: 0-99 mm Hg	
		Miscellaneous:	
		Should comply with international standards and CE marked.	
		At least 2 seats of sets of spare probes / leads with each module except	
		NIBP and temperature.	
		Stand / trolley integrated with each monitor.	
		Warranty for two years from date of installation.	
		AMC for five years after warranty period.	
		Company should quote rates for all accessories and consumables.	-
		The equipment should be designed to comply with existing international	-
		standards in term off safety and performance i.e ISO 9001. IEC 601, CE.	-
		All tenders to be supported by original brochure containing the details of	
		the technical specifications of the product.	_
		The firm will have to demonstrate the equipment at the institution before	
		opening of the price bid at there own cost.	
122	ANDORNEGIA		
433	ANESTHESIA		One
	DRUGS TROLLEY		each is
			2 ots,
		Should be a light- weight cart with buffer rails mounted on castors	recove
		(12 cm diameter minimum). Two of the castors should be lockable	- ry,
		Should have two vertical rows of five drawers, side by side to	pre-op
		, ,	_ holdin
		hold anesthesia drugs and fluids and I/V access equipment etc.	g
		they should be lockable with single lock for topmost drawer on each side	4
		Should have at least 8 small bins side by side on the top to hold ampoules	
		of emergency drugs.	_
		Should be made of rust proof stainless steel.	
434	PATIENT		2
	TRANSFER /		
	RECOVERY/	Should be universal procedure trolleys for emergency rooms,	
		1	1
	RESUSCITATION		
	TROLLEYS	patient shifting from or ICU or PACU.	
		Should have patient weight bearing capacity of at least 170kgs.	
		Should be made of stainless steel and rust proof materials.	7
		Dimensions (minimum required patient surface), length 190 cms	7
		and width 75 cms.	╡
		Should be convenient to move in all directions with castors (size	╡
		180mm that lock from any corner with central lock mechanism	┥
		and staring control from all four corners.	
			-
		Should have hands free pneumatic / hydraulic assist positioning	-
		for height adjustment (at least 60-80cms)	-
		Should have facility for trendelenburg and reverse trendelenburg	_
		Positions (at least 10 degrees)	_
		Should have pneumatic or manual crank fowler control (9-90	_
		degrees)	
		Should have provision for quick release of elevated head end.	

		. 57	
		Should have tuck away / fold down adjustable light weight safety	
		side rail with self locking mechanism.	
		Should have detachable head and foot panels. Foot end panels	
		should have holding bracket for transport ventilator and transport	
		monitor. Head end panel should have holding bracket for patient	
		files and record sheets.	
		Should have one oxygen cylinder bracket and utility tray beneath	
		mattress base.	
		Should have steel adjustable I/V drip rod with double holding	
		hooks .I/V drip rod holding position should be present at each	
		corner of the trolley.	
		Should have pushing rubberized bumper handles at both ends.	
		Should have P.U. form mattress with vinyl PVC cover- 50mm	
		Thick- removable for patient surface.	
		The equipment shall be displayed the Dr HSJ Institute of Dental	
		Science, for technical evaluation at the cost of the company.	
		Should provide at least 2 years warranty, and 5 years CMC.	
		bhould provide at least 2 years warranty, and 5 years enter	
435		1. Length of bains circuit should be at least 180 cm.	
.55		2. Should have diameter - inner tube = 7 cm	
		3. Should have diameter - outer tube = 22 cm.	1
	BAINS CIRCUITS	4. Should have APL VALUE.	1
		5. Should have 2 litre reservoir bag.	
		6. Should be convenient to use for manual ventilation by means of either:	
		a) 2 metre extension of the inner tube which connects to the common	
		gas outlet of the anesthesia machine.	
		b) 1.5 - 2 metres of 22 mm ID tube interposed between the machines	
		and of the circuit and the reservoir bag.	
		7. Should have right angle connector with a port for ETCO2	
		8. Should have a 't' piece.	
436	ANAESTHESIA	Should be transparent, made of silicon.	
430	MASKS	Should be transparent, made of smeon.	
	MASIKS	Should have inflatable air cushion for good seal.	
		Should be suitable for connection to all anaesthesia systems.	
		Should be suitable for connection to an unaestnessa systems.

100	A DI II EL CODO	58	l <sub>4</sub>
39	ADULT CPR	Should be supplied in form of torso.	1
	MANIKIN	Should be of light weight (<20kg) and capable of long product life (5 years).	
		It should have palpable and visual landmark for cardiopulmonary resuscitation.	
		During each compression carotid plus should be felt in the neck.	
		There should be monitoring unit for correct/ incorrect hand position and	
		correct/ incorrect chest compression depth.	
		It should be capable of head tilt, chin lift and jaw thrust.	
		It should simulate rise and fall of chest during ventilation.	
		There should be monitoring for volume of air insufflated into the lings and	
		should also indicate insufflations of stomach.	
		It should be cable of teaching defibrillation and should be compatible with	
		all standard brands and types of defibrillators.	
		It should have programmed scenarios for defibrillation.	
		It should be upgradable for training in variety of resuscitation scenarios,	
		advance life support and attachment to a computer.	
		Should be accompanied by all accessories and carry case.	
		It should be provided with a two- year warranty and rate for five years	
		CMC to be quoted separately.	
40	OPERATING	Compact Microscope body floor mounted on four castors.	1
	MICROSCOPE 6-		
	STEPS		
	MAGNIFICATION		
		Should have binocular head of 0-180 degree inclinable head.	
		Should have 32mm depth of field.	
		Should have six steps turret magnification system (i.e. 2.3x, 3.2x, 5x, 8.2x,	
		12.8x and 19x) with 250mm objective lens.	
		Should have large view of field (i.e. 72mm, 50mm 20mm 13mm and	
		9mm) in respect of above magnifications.	
		Should have dual light source: 50w Bright white Metal Halide with 2000	
		Hours life with a standard 12v 100w Halogen as Backup.	
		Should have True Coaxial through the lens illumination.	
		Should have HD video camera capable system with accessories attached.	
		Should have 10x wide Field Eyepieces with (12.5x and 20x should	
		be available for future up gradation).	
		Should have f=250mm Objective lens standard.	
		Should be supplied with fixed/inclined binocular head for assistant head	
		fitted on beam suplitter.	
		Should have Warranty of 2 years.	
4.4	DI A MILITADA (III		4
41	DIATHERMY MACHINE (ELECTRO SURGICAL	A trolley mounted, multi-purpose solid state Electro Surgical Unit (without output	1
	CAUTERY)	Power fluctuations) with:	
	CITO IDICI)	The output circuit isolated form ground.	
		Modes: Unipolar (Cutting, Coagulation & Blend) & Bipolar (Cutting &	
		Coagulation0.	
		Output power (approx)	
		Cutting : 300w	
		Blend : 150w / 300w	
		Coagulation : 120w.	
		Bipolar Output : 50w.	
		Power : 200 to 230 V, AC 50 Hz with	
		Indian	
		Plug.	
		The unit should have digital display of output power in various modes of	
		operation.	
			1
		The unit should have facility of output status monitoring by sound (	

		59	
		Cutting mode etc.)	
		Audible &visible warning against malfunction and disconnection of ground plate.	
		Time limit monitor to prevent major damage due to unintentional damage.	1
		Activation via finger switch and pedals for unipolar and bipolar use.	
		Safety requirements and color codes should comply with IEC standard.	
		With accessories like:-	
		With accessories like	
		Dista for alastra de vista cond. Inicos	
		Plate for electrode with cord- 1piece.	
		Bipolar forceps with cord- 1piece.	
		Foot switch - 1piece.	
		Electrodes - 1 set (12 Nos.)	
		Earth cord - 1piece.	
		Electrode chuck handle - 2 pieces.	
		Dust cover - 1 piece.	
		The product should be supplied with suitable portable trolley on castor to house the	
		unit and UPS of adequate rating (ISI mark) for back up of 30minutes.	1
		The product should be CE Marked or BIS approved.	4
		Warranty: 2 years from the date of installation	-
		CMC for 2 years after the expiry of warranty period	
4.42	TD ANGRORE		1
442	TRANSPORT	Should be microprocessor controled, suitable for adult and pediatric	1
	VENTILATOR	patients.	_
		Should have invasive with control, assist/control, SIMV, CPAP and Apnea	
		back up ventilation modes.	
		Volume control, pressure control and pressure support ventilation	
		Should have the range of	
		a. Tidal volume 50-2000ml	
		b. Respiratory rate 0 to 60/mt.	
		c. Flow rate 5-100 lt/mt	
		d. Inspiratory time control cycle 0.1 sec-3 sec (Time cycle operation)	
		e. Oxygen delivery 21-100% through oxygen blender	
		f. Peak inspiratory pressure 0-100 cm H2O	
		h. Pressure support/ASB 0-35 cm of H2O or above	_
		Should have automatic adjustment of flow at low airway pressure for delivering set tidal volume	
		Should have real time monitoring of peak and plateau pressure,	
		CPAP/PEEP, Inspired/expired minute volume, Inspiratory rate, FlO2	
		Should have audio visual alarms, alarm silence and reset facility should be available.	
		Should work on gas supply from a central gas supply system or from a	1
		medical gas cylinder.	
			-
		Should be possible to operate from a variety of power sources including AC	
		power, external/internal batteries, stand by time for batteries should be in	
		the range of 60-120 minute.	-
		The ventilator should be supplied with	-
		a. Adult circuits - 2 sets	-
		b. Rechargeable batteries - 2 sets	1
		c. Base to mount ventilator	
		2 year warranty	
		5 years CAMC rates to be quoted separately.	
		Equipment to be displayed for technical evaluation at Dr H S J Institute for	
		evaluation at the expense of the company	-
43	VENTILATOR	One ventilator, for use in the Postoperative ward.	1
r <del>+</del> 3	VENTILATUK	· · ·	- 1
		Should be a microprocessor based unit with the following specification:	-
		Suitable for both adult and pediatric patients Should operate in IPPV,SIMV,CPAP & NIV modes with:	-
		S DOUG OPONOTO IN THUS A STRUCK I HALL BY NILV MODEON WITH	

60 Volume control ventilation should be available in CMV / SIMV mode: Pressure control ventilation should be available in CMV / SIMV mode: PSV in SIMV/CPAP mode. Should operate with pneumatic gas source as well as compressor must be an integrated part of equipment. UPS back up of at least one hour for compressor and ventilator must be provided. Different colour code for different settings/alarms, preferably with knob control. **Patient Monitoring** Real Time Curves Breathe by breath display of at least pressure flow volume Vs time & Volume pressure or flow volume loops. Trending Curves: Should be able to give trends of selected parameters for up to 24 hours at least. Display of Ventilation / patient parameter & alarms. Display should be on coloured TFT screen / TFT Touch screen. They should be visible from reasonable distance. Display should be adjustable for optimal visibility. Capable of displaying min. of 2 wave forms/curves at a time. It should be able to display Total Breath rate Spontaneous breath rate Exhaled tidal volume Exhaled minute volume Fio2% Peak flows Peep/CPAP There must be a provision for calculation and display of respiratory mechanics like: Compliance/ resistance. Dynamic mechanical monitoring Plateau pressure / peak pressures Auto PEEP Sittings Machine must have provision for following settings. Tidal Volume :30 to 200ml Respiratory rate : 1-100cycles/min Flow : 61/pm to 150 1/min Flow pattern : square, decelerated. Inspiratory Plateau : 0-60% insiratory time. PEEP/CPAP : 0 to 35cm H20 : 0 to 70cm H2O Pressure Support O2 : 21 TO 100% Trigger sensitivity : Flow 1-15 Lpm all patient initiated breath : Pressure: 1to 10 cm below PEEP I:E ratio : Inverse ratio up to 4:1 Apnoea backup : For at least 3mintus for suction. 100% Oxygen Alarms: Must have followings alarms. Pressure : Min/max 02 : Minimum / high oxygen. Low exhaled tidal volume. High respiratory rate. Low PEEP/CPAP pressure. Patient disconnection. Apnoea ventilation. Main power, air oxygen supply failure. Machines should have power on self test and extended self test for safety.

Following accessory must be provided with the machine.

Reusable patient filter (2) at least .(per machine)

		Patient's circuits (Reusable) Adult & Pediatric (2 adult 1 pediatric).	
		Humidifier, water traps and Nebulizer.	1
		Non – invasive CPAP mask with harness (2 Nos).	
		Should have facility for software upgradation.	
		Power supply 220V AC.	
		2 year warranty,	
		5 years CAMC rates two be quoted separately.	
		The equipment two displayed at DR HSJ institute at the company expense before purchase.	
444	DIGITAL INTRAORAL RADIOVISIOGRA PHY SENSOR	The equipment should have the following:	5
	AND SOFTWARE	DIGITAL INTRAORAL SENSOR SPECIFICATIONS	
		The equipment should have the following:	
		Sensor with following features:	
		- Size Adult (Size-1)	
		- Option of Size '0' (Pedo) and Size '2' (Extra-large)	1
		- Thickness not more than 5 mm	1
		Based on CCD/CMOS-APS Technology	1
		- Directly adaptable to USB 2.0 Port	
		Round edges and maximum reach inside the mouth	
		- Sensor Active Area should range from 430 to 925 mm <sup>2</sup>	
		- Sensor Life of 350,000 Exposure or more	
		Sensor should be detachable from USB Interface	
		- The sensor cable length should be at least 1.5 mtr	
		- USB Cable length should be at least 2 mtrs (preferably 5mtrs)	
		Imaging Software Features:	
		- should allow for faster & easier exposure; no hardware or computer reset should be required between two successive x-ray shots	
		Automatic acquisition and save mode	
		- No time-out of sensor system while waiting to take intraoral xray	
		- No re-setting of hardware and/or software between two x-rays	
			-
		- Ability to do Horizontal / Vertical / Line Histograms	
		- Sharpening / Cleaning / Improving Features	
		- Single Click enhancement for under / over exposed images	
		- Support for multiple database archive	
		- Multiple Patient search criteria	
		- Automated Microsoft Word report templates	1
		TWAIN Support for direct scanning acquisition	1
			=
		- Emboss image enhancement	-
		- Localized enhance feature	
		- Ability to e-mail x-ray exams directly from software and to read exams from e-mail	
		- Should work on Windows 7, Vista and XP Prof	
		- The image management software should be DICOM compliant.	1

Electro Hydraulic	A versatile Operation Table for General Surgery and certain special
O.T.TABLE C	procedures.
ARM COMPATIBLE	Provides smooth, easy and accurate positioning
COMIATIBLE	Fully manouverable by Finger tip operated Touch Keys on a Remote
	Control Hand Switch.
	a. All parts should are made up of Stainless Steel (304 G)
	b. Table top completely Radio-lucent
	c. In built Kidney Bridge
	d. Split leg rest
	e. Automatic Floor Locking
	f. Full length Cassette Tunnel to move X-Ray
	cassette. Special quick-change clamp to hold cassette firmly in any position.
	g. Electrically Operated positions
	☐ Memberane type, feather touch, hand control, to adjust all Electro-
	Hydraulic movements. Shock Free, Operating on DC 12V with a flexible
	cable.
	□ Parallel Operating Switches which is fixed to the table
	☐ Raising and Lowering
	Trendelenberg to reverse trendlenberg 30 deg with automatic sensor
	leveling device which stops table when it reaches 100% level to restart on activating switch again
	☐ Lateral tilt left to right 28deg with central leveling device which
	stops table when it reaches 100% level to restart on activating switch again
	☐ Back rest 80 deg upright to 10 deg downward
	f. Mechanical & Other adjustments:
	- Leg rest mechanical movement from parallel to 90 deg downward
	- Head Section - moved mechanically, detachable for fixing neuro
	Head Rest;
	- Table mounted on Castor wheels. Its movements in the Operation Theatre should be smooth.
	- Brake for firm and rigid locking of table;
	- When the Brake is released the table is free to move on its castors.
	The Movement should be controlled by high pressure Electro Hydraulic
	System to achieve smooth and efficient operation, without the slightest jerk
	at start/end.Manifold should has Flow Control Valves for adjusting the
	desired speed of the table movement to high accuracy.
	Hydraulic Motor Pump with long operating life is fitted with Anti-
	Vibration mountings and Auto Thermal Cut-off.  DIMENSIONS:
	Length: 1800 to 1900 mm approximately
	Width: 500mm to 550mm approximately
	ELECTRO-HYDRAULIC MOVEMENTS:
	I) Raising & lowering
	a) Minimum height: 700mm to 800 mm approximately
	b) Maximum Height: 1000 to 1100 mm approximately
	Standard accessories:
	Arm Board 2 Nos
	Lateral Support 2 Nos
	Universal Lateral Support 2 Nos
	Knee Crutches complete 2 Nos
	Anaesthetic Screen frame 1 No.

i	I		
		Shoulder support complete 2 Nos	
		Additional accessories to be quoted separately	
		General purpose head Support	
		2. Raised Arm Board	
		3. Cassette Tray with adjustable Rod	
		4. Cassette Holder	
		5. Lateral Cassette Holder	
		6. Knee rest	
		7. Douche Tray- Hanging type	
		8. Stainless Steel Stand to mount all attachments	
		9. Orthopaedic Attachment	
		10. Battery Back up	
		11. Top sliding

454	PEDIATRIC	1. Should have 500 ml reservoir bag with an open end	
	CIRCUITS	2. Should have a right angle connector with a port for ETCO2	
		3. Should have 2 meters long tubing for fresh gas flow with a 15 mm OD	
		connector to connect to anaesthesia machine	
		4. Should have at least 60 cm long corrugated tubing connected to	
		reservoir bag	
		5. Should have a T-piece	
455	PULSE	Should run on both 220 V AC and in-built rechargeable battery Fully	1
	OXIMETER	Charged battery should run for at least one hour	_
		Display of digital oxygen saturation and pulse rate	
		Display of plethysmographic waveform	
		Adjustable audible and visible alarms for low and high saturation and pulse rate	
		Change in pitch of audible pulse tone with saturation	
		Selectable response time	
		Should be supplied with at least 2 wrap type, 2 finger and 2 ear lobule	
		probes	
		Data out put port (RS 232 compatible)	
		Warranty for 2 years and C.M.C for 5 years after warranty	
156	CLUCOL (EEEE		4
456	GLUCOMETER	Should be based upon glucose oxidase method	1
		Should use plasma glucose as reference for calibration	
		Should have a testing time of less than 20 seconds	
		Should have a result range of 20-600 mg/dl	
		Should display results in both mg/dl and mmols/lt	
		Should be able to operate with a 3V batter	
		Should have a long batter life to conduct minimum of 1000 tests	
		Should have a memory of minimum 150 test	
		Should provide a automatic shut/off facility	
		Should provide the instrument as well as maintenance free of cost	
		Should conform to BIS/ISI/CE or equivalent standards	
Ţ	ı		_

		SPECIFICATION FOR GLUCOSTIXS	1
		Should be based on glucose oxidase method	1
		Should be compatible with the glucometer supplied	1
457	Portable dental chair		2
		chair should be light weight and sturdy, has a strong padded case and safe for upto 150-200 Kg and has provision for adjustable back from upright to	
		supine position and seat height. It should be foldable for carrying into field.	
458	Portable suitcase	A compact suitcase in which all desired equipments mentioned below are	2
	unit with	fitted-	
	compressor	Saliva ejector -1	
		3way-syringe-1	
		Air rotor point-1	
		Micromotor point-1	
		Ultrasonic Scaler (2no) - It should be piezotronic scalar of 30 Khz frequency. Autoclavable Hand piece total control is micro processed based control unit. The scalar should be supplied with 3 tips. Preferably of EMS make or its best equivalent	
		Compressor (1no.) – should be Oil-free, Medical grade Mono-bloc of 0.75Hp power and be of compact dimension with a handle attached to carry it. Should have a air release and drain valve

## ANNEXURE – D

(To be returned with the Technical Bid)

## Terms and conditions of the Agreement to be executed by successful Tenderers.

This Agreement regarding the supply, installation and maintenance of
mad
this dayTwo thousan
and by an
between Panjab University, Chandigarh, represented by The Principal cum Professor
Dr. Harvansh Singh Judge Institute of Dental Sciences & Hospital, Panjab University
Sector-25, Chandigarh (Hospital/user) (herein after referred to as the First Party) and M.
and their agen
(hereinafter referred to
as the "Second Party and "Third Party" respectively) which expression shall unless
specifically excluded by or repugnant to the context include their Heirs, Executor
Administrator, Legal Representatives and Assignees. The second party may nominate
their agent if they so desire and inform the First Party in writing about such appointment
It is further stipulated that notwithstanding anything else in this Agreement, the Second
Party shall inform the First Party in writing about the change of such agency. Further, the
new agency shall remain bound by the present Agreement irrespective of any arrangement
written or otherwise between the Second Party and its agents to which agreed that th
Agreement will be binding on all parties collectively and separately.
2.0 THE AGREEMENT :
2.1 This Agreement concerns the supply installation and commissioning of equipment of
turnkey basis to be supplied by the Second Party and Third Party according to
Supply Order(s
No
Dated and their Proforma Invoice No
dated a copy of which is appended (Annexure). Further, the
equipment is to be installed by the Second Party and the Third Party at the
designated premises of the first party according to the schedule agreed upon a
stated below.

2.2 The Second Party and Third Party agree to supply, install and commission the entire equipment within the period of **84 days** after the opening of the Letter of Credit opened by the First Party for the supply, installation and commissioning of the said equipment.

The equipment with all its accessories should be dispatched by air to Delhi (India) duly insured upto Chandigarh, freight and insurance charges prepaid.

- 2.4 The Second and Third Party shall ensure submission of performance Bank Guarantee and duly executed Agreement within 30 days of issue of Supply Order failing which and without prejudice to its remedy under the contract, the Supply Order shall stand cancelled, except when specific extension is given by The Principal cum Professor Dr. Harvansh Singh Judge Institute of Dental Sciences & Hospital, Panjab University, Chandigarh in this regard, on a request form the supplier within 30 days of issue of Supply Order, citing valid reasons for seeking extension, which shall, in any case, be given for a maximum of 30 days. If the PBG and Agreement is not supplied, as called for within the stipulated period, the Supply Order shall be liable to be cancelled and EMD forfeited.
- 2.4 (a) Further, the equipment will be supplied, installed, commissioned and handed over to the First Party in complete working order within a total period of **84 days** after the opening of the Letter of Credit.

If the supplier fails to deliver any or all of the goods or perform the services within the time period(s) specified in the contract, the purchaser shall, without prejudice to its other remedies under the contract, deduct from the contract price, as liquidated demurrages, a sum equivalent to 0.5 % of the contract price for each week of delay or part thereof until actual delivery or performance, upto a maximum deduction of 10 (ten) % percent of the contract price. Once the maximum is reached, the purchaser may consider termination of the contract by which the supplies or their satisfactory installation, commissioning and handing over is delayed. The Second Party and Third Party will inform the First Party in writing, intimating the reasons for delay in supplying, commissioning and handing over of the equipment in satisfactory working order. The First Party at its sole discretion may consider a reduction or waiving of the penalty for a period to be stipulated in writing.

- 2.5 The system operational efficiency and concepts would be fully demonstrated after job completion by the Second/Third Party for which nothing extra shall be payable by the Institute. The materials etc. required for demonstration of satisfactory functioning of the equipment shall be arranged by the Second and Third Party.
- 2.6 Thorough inspection of the equipment system will be carried out by the First Party only on completion of the entire job of installation and commissioning of the equipment. The acceptance of the equipment will be based on demonstration of the satisfactory working of all modes of the equipment as tested by the Inspecting Authority.
- 2.7 This Agreement comes into effect from the date of opening of the Letter of Credit in favour of the Second Party. The Agreement will initially be valid for a **period** of \_\_\_\_\_ years to be counted from the date of installation and commissioning & handing over of the equipment. This duration of \_\_\_\_\_ years includes the guarantee period of \_\_\_\_\_ years followed by the service contract period of \_\_\_\_\_ years.
- On expiry of the initial **period of** \_\_\_\_\_ **years**, this Agreement may be renewed for a further period by mutual Agreement between the parties in writing. However, notwithstanding anything else stated here, the Second Party undertakes to continue to provide service and required spare parts at an agreed price for the entire life of the equipment. Further, the Second Party undertakes to provide all the circuit diagrams of the entire equipment, including all its accessories, in the event the particular model is phased out of production. It further agrees to provide

and sell to the First Party all spare parts that may be needed for the remaining life of the equipment.

#### 3. PRICES:

3.1 Prices of the equipment as shown in Annexure

viz \_\_\_\_\_\_\_ are CIF for destination Dr. Harvansh Singh Judge. Institute of Dental Sciences & Hospital, P.U. Chandigarh (Site of installation) with the break up for approximate freight and insurance, agency commission, installation charges payable at actuals.

#### 4. PAYMENT TERMS:

#### (i) On Shipment:

80% of the FOB value shall be paid through irrevocable Letter of Credit established in the favour of the foreign supplier through State Bank of India, Panjab University, Sector 14, and Chandigarh on a bank in the supplier's country, on submission, to the bank, of the documents specified in the Letter of Credit and further following documents:

- a foreign supplier's certificate that the amounts shown in the invoice are correct in terms of the contract and that all the terms and conditions of the contract have been complied with
- b foreign supplier's certificate confirming that the original shipping documents have been dispatched to the port consignee in accordance with the contract and
- c any other document specified in the notification of award or the contract.

#### (ii) INDIAN SUPPLIER

a Final payment shall be made after receiving of the Mobile Dental Van/Consumable/Equipments and submitting the sasfactory working / installation report duly signed by HOD of concern Deptt., Principals cum Professor of the Institute and registration & physical fitness certification by RTO/ Deptt. of Transport Chandigarh.

#### 4.2 ON FINAL ACCEPTANCE:

Remaining 20% of the FOB value and actual freight and insurance (based on production of the receipts of the same limited to the estimated amount as mentioned in the Supply Order) shall be payable by Draft/SWIFT on receipt of goods on submission of claim supported by the acceptance certificate issued by the consignee/ purchaser's representative in the proforma given in Annexure – G of the NIT, inter-alia mentioning therein the date of completion of 90 days satisfactory and faultless functioning of the equipment and subject to other provisions of the Agreement.

- 4.4 The Institute shall make all reasonable and due efforts to pay the Indian Agency Commission out of the FOB value to the Third Party at the earliest possible after satisfactory installation/commissioning and handing over of the system in good working condition and meeting any other requirements for payment of the Agency Commission. The rate of exchange applicable for covering Agency commission into equivalent Indian Rupees shall be the TT selling rate prevalent on the date of releasing the documents at the time of shipment by the bankers. The Indian Agency Commission out of the FOB value will be paid in Indian Currency (Rupees) to the Third Party.
- 4.5 The equipment will be installed by the Second Party or the Third Party at the designated premises of the First Party.
- 4.6 The octroi exemption certificate, if required, shall be provided by the First Party.
- 4.7 It is agreed that increase in price on account of any statutory increase or fresh imposition of customs duty, sales tax or on account of any other tax or duty leviable in respect of the stores specified in the accepted tender which takes place after the date of delivery installation, commissioning and handing over period stipulated in the contract, shall not be admissible on such of the said stores as are delivered after the stipulated date of delivery and completion. This is subject to Force Majeure clause.
- 4.8 It is agreed that notwithstanding anything stipulated in the contract for increase in price on any other grounds, such increase which takes place after the date of the delivery and completion stipulated in the contract shall not be admissible on such of the said stores as are delivered after the expiry of the delivery and completion period stipulated in the contract.
- 4.9 But, nevertheless, the Institute shall be entitled to the benefit of any decrease in price on account of reduction in or remission of custom duty, excise duty or sales tax or any other tax or duty or on accounts of any other grounds, which takes place before the date of actual delivery of the goods.
- 4.10 A certificate shall be submitted, alongwith the final payment bills of the tendering firm, stating whether or not they have any pending appeal/protest for refund of partial or full excise duty already reimbursed to the firm by the Institute pending with the excise authorities and if so, the nature, the amount involved and the position of such appeals. This certificate should be signed by the Managing Director/Manager/ Accountant of Second/Third Party.

## 5. IMPORT FORMALITIES AND CUSTOMS CLEARANCE:

- 5.1 The equipment requiring import from abroad will be imported under the OGL scheme, for which Second Party and Third Party will ensure, before shipment takes place, that the equipment in question can be imported under the said scheme.
- 5.2 It will be the responsibility of the Third Party to get the customs clearance of the equipment duty free where this dispensation is available. It will also be the responsibility of the Third Party to pursue any claims with the customs authorities/insurance company, cargo operators and transporters as may arise at any stage.
- 5.3 The N.M.I.C. (Not Manufactured in India Certificate) and the C.D.E.C. (Custom Duty Exemption Certificate) will be provided by the First Party. However, the Second Party and third party will effect the shipment only after seeking confirmation regarding availability of the above from the First Party. Delays on this account will not count towards any penalty clauses in this Agreement.

5.4 The First Party shall indicate in the Supply Order whether any custom duty / excise duty exemption is available. The First Party shall make available such custom / excise duty exemption certificate. However, it shall be the responsibility of the Second and Third Party, before dispatching the consignment to ensure that such exemption certificates have become available with the First Party. Failure on this part of Second and Third party will render them liable to pay all demurrage charges which become payable.

#### 6. INSURANCE

- 6.1 The Second Party will ensure that the equipment is properly insured for the full C.I.F. value to cover the transit **upto site of installation** (At user's premises) and to cover the further storage period etc. upto and of the period of satisfactory installation as agreed upon. If the installation is delayed beyond the agreed date of satisfactory installation, commissioning and handing over of the unit then in that event any transit and storage damages which come to light after such delays shall be at the risks and cost of the second/Third Party. The second party/Third Party will provide to the First Party, after due inspection, a detailed list of any loss or damage that may have occurred so as to enable the First Party to file the appropriate claims that may arise with the insurance company (ies). second/Third Party undertakes to provide all assistance in pursuing any such insurance claims expeditiously. In lieu of damaged/lost items etc. regardless of the fact whether the claim is settled by the underwriters or not, the Second Party's liability is restricted to making free replacement/rectifications and any local expenses such as Customs Duty Clearance etc. connected with such replacements shall be borne by the First Party.
- 7. It should be noted that if, in consideration of offer of earlier delivery, the contract is placed with a higher tenderer in preference to the lowest acceptable offer, the tenderer will be liable to pay to the Institute the difference between the contract rate and that of the lowest acceptable tender on the basis of the final price for destination, including all elements of freight, sales tax, local taxes, duties and other incidentals, in case of failure to complete supplies in terms of such contract within the date of delivery specified and incorporated in the contract. This is in addition to and without prejudice to other rights of the Institute to recover all other losses and damages resulting from delayed supplies and of cancellation and risk purchase in case of failure to supply the stores.

#### 8. GUARANTEE/WARRANTY:

## 8.1 Guarantee/warranty shall be for a period of \_\_\_\_\_ months

- 8.2 The foreign suppliers and the tenderer should guarantee the entire equipment against defects of manufacture, workmanship and poor quality of components.
- 8.3 The guarantee/warranty against defects of manufacture, workmanship and poor quality of components shall be for the entire equipment and work conducted under the contract. During the guarantee period the replacement of any part(s) of the equipment or rectification of defect of works shall be free of cost.

#### 8.4 UPTIME GUARANTEE

The firm will be required to give warranty / guarantee that during warranty period the equipment, including accessories, will be maintained in good working condition for a period of 347 days out of a period of 365 days (i.e. 95% uptime). If the machine is out of order for more than 5 hours during any day, it shall be considered as one day down time. The essential period to shut down the

installation, entirely or partially, shall also be included in the downtime if it exceeds 2 days, while calculating the 95% guaranteed uptime. No deduction or advantage of any kind on account of Sundays, half days on Saturdays, and Public/Govt. holidays observed by the Institute shall be allowed from the total down time permissible as defined above. The equipment will thus be required to be maintained in satisfactory working conditions for a minimum of 347 days in each period of 365 days which defines the 95% guaranteed uptime required to be maintained in each such period of 365 days. This guaranteed uptime shall be calculated for each block of 365 days.

- 8.5 The Second Party and Third Party will be required to pay **a penalty of Rs. 500/- per\_day** in case the number of days of downtime in each period of 365 days is more than the downtime permissible during warranty period which is to be calculated as defined above and the delay for not bringing the equipment in functioning order is in any way directly, even partially, attributable to the firm. The penalty will apply only for the number of days in excess of the permissible downtime as defined above.
- 8.6 The Second Party and the Third Party guarantee that the equipment being offered is the latest model and that spares for the equipment will be available for a period of at least 10 years (life span). The Second Party and the Third Party also guarantee that they will keep the Institute informed of any up-date of the equipment over a period of next 5 years and undertake to provide the same to the Institute at no extra cost.
- 8.7 The Second Party and Third Party guarantee/warranty that they will supply regularly any items of spare parts requisitioned by the purchaser for satisfactory operation of the equipment till the life span (to be mutually decided) of the equipment if and when required on agreed basis for an agreed price. The agreed basis could be an agreed discount on the published catalogue price or an agreed percentage of profit on the landed cost.
- 8.8 The Second Party and Third Party guarantee that before going out of production of spare parts, the Second Party/ Third Party will give adequate advance notice of atleast six months to the First Party so that the First Party may undertake to procure the balance of the life time requirements of spare parts.
- 8.9 The Second Party and Third Party guarantee that they will make available to the First Party the blue prints and drawings of the spare parts as and when required in connection with the equipment.
- The Second Party and Third Party guarantee that the goods/articles supplied to the 8.10 First Party under this contract shall be of the best quality and workmanship and shall be strictly in accordance with the specifications and particulars contained/ mentioned in the clauses here of and the Second Party and Third Party hereby guarantee that the said goods/stores/articles conform to the description and quality aforesaid. The First Party will be entitled to reject the said goods/stores/articles or such portion thereof as may be discovered not to conform to the said description and quality. On such rejection, the goods/ stores/articles will be at the seller's risk and all the provisions herein contained relating to rejection of goods etc. shall apply. The Second Party and Third Party shall, if called upon to do so, replace within a period of fourteen days or such further period as may be extended from time to time by the First Party at his discretion, on an application made thereof by the Second Party/Third Party, the goods/stores/articles or such portion thereof as rejected by the First Party. In such an event, the above mentioned warranty/guarantee period of the entire equipment shall be extended by the time taken for these replacements. Otherwise, the second/Third Party shall pay to the

First Party such **demurrages** as may arise by reason of breach of the conditions herein contained. Nothing herein contained shall prejudice any other right of the First Party in that behalf.

8.11 The Second Party and Third Party will submit a Performance Bond / Bank Guarantee (PBG) for 10% of the F.O.B. value of the equipment towards the execution of the Agreement and the warranty valid till the expiry of the warranty period of 24 months, or extended period of warranty of 24 months as the case may be. The PBG should however be valid for at least 24 months. After receipt of said bank guarantee, the First Party will return the call deposit receipt already submitted by the Second Party and Third Party as earnest money. On expiry of the warranty period, the PBG will be returned by the First Party to the Second Party and Third Party but only after the latter parties have submitted a fresh Bank Guarantee for Rs.\_ valid till the expiry of the period of the service contract. The fresh Bank Guarantee to cover the service contract shall be submitted at least one month before expiry of the previous Bank Guarantee and shall be for 5% of FOB value of the equipment referred to above in case of AMC and for 10% of FOB value of the equipment referred to above in case of CMC.

### 9. TRAINING OF PERSONNEL

The successful tenderer will be required to undertake to provide at his cost technical training for personnel involved in the use of the equipment at site at P.U. immediately after its installation. For this purpose the company experts shall be required to operate and train the P.U. personnel at site at P.U. for a minimum period of one month at the company's cost.

- 10. The Second Party/Third Party hereby agree to station at all times at Chandigarh, at their cost, a Resident Engineer who is suitably trained for affective preventive and prompt maintenance of the equipment during the period of **guarantee/warranty of**\_\_\_\_ months or extended period of warranty and the service contract period.
- 11. INSTALLATION AND SATISFACTORY COMMISSIONING OF THE EQUIPMENT:
- 11.1 The scope of work includes the satisfactory installation and satisfactory commissioning of the equipment by the Second and Third Party. The term satisfactory installation and commissioning and handing over wherever used in this contract/Agreement will mean satisfactory and faultless functioning of the equipment for **90 days** and of works conducted there under covered under the contract in working order. The Second Party and Third Party shall in consultation with the First Party, furnish at no extra cost to the First Party within 15 days of the Supply Order, the full details of all works required to be carried out by the Institute in connection with the completion of the work within the stipulated period.

## 12. <u>MAINTENANCE OF THE EQUIPMENT DURING SERVICE CONTRACT</u> PERIOD:

- 12.1 It shall be the responsibility of the Second Party and Third Party to keep the equipment including its accessories, covered under this Agreement in good during the entire service contract period of 5 years, working condition which will start with the expiry of the guarantee period as stipulated in Para 8.1 or extended period as the case may be from the date of installation of the equipment. During the service contract period, the equipment, including accessories, will be maintained in good working condition for a period of 347 days out of a period of 365 days (i.e. 95% uptime). If the machine is out of order for more than 5 hours during the period 8.00 AM to 5.00 PM on any day, it shall be considered as one day down time. The essential period to shut down the installation entirely or partially shall also be included in the down time if it exceeds 2 days while calculating the 95% guaranteed uptime. No deduction or advantage of any kind on account of Sundays, half days on Saturdays, Public/Govt. holidays observed by the Institute shall be allowed from the total downtime permissible as defined above. The equipment will required to be maintained in satisfactory working conditions for a minimum of 347 days in each period of 365 days which defines the 95% guaranteed uptime to be maintained in each such period of 365 days. The firm will be penalty of Rs.500/- per day in case the number of days of required to pay a downtime in each period of 365 days is more than the downtime permissible which is to be calculated as defined above and the delay for not bringing the equipment in functioning order is in any way directly, even partially, attributable to the firm. The penalty will apply only for the number of days in excess of the permissible downtime as defined above.
  - (a) During the AMC, the time taken by the First Party in providing the spares till the functioning of the unit will not be calculated as down time. But the period of AMC will be extended equivalent to period the unit remains out of order. The Second Party has to submit the Proforma Invoice for the import of spares within 4 days. Extra period than this will be counted as down time.
  - (b) During the guarantee/warranty period the time taken by the Second Party for putting the unit in working order more than 5 days will be considered as down time, the guarantee/warranty will be extended accordingly.
  - (c) If the First Party opts to enter CMC during this period, the equipment alongwith its accessories has to be maintained for 347 days in a year as defined in above Para 12.1. However, 5 days time will be allowed to procure the spares, in case the same has to be imported and this period of 5 days will not be counted as down time. The Second Party will furnish a Bank Guarantee as stipulated in Para 8.11 of the Agreement.

## 13. SPARE PARTS DURING GUARANTEE/WARRANTY PERIOD:

- 13.1 All spare parts required during the guarantee/warranty period of the equipment as defined in Clause 8 for the satisfactory maintenance, running and upkeep of the equipment shall be provided by the second/Third Party at its cost, expenses and care. All such defective parts/components replaced by the second/Third Party during the guarantee period and Comprehensive Maintenance Contract period shall be the property of the second/Third Party.
- During the Annual Maintenance Contract period, replacement of parts/components that may be needing replacement shall be made available by the First Party to

be

the Third Party at the First Party's own expense. Replacements may the property of First Party.

- 14. Service charges and payment during service contract period.
- 14.1 The maintenance service charges will become effective automatically after the expiry of the guarantee period or extended warranty period as stipulated in Para 8.11 of the Agreement from the date of satisfactory installation and commissioning and handing over of the complete equipment including all accessories.

14.2	The	Maintenance C	ontract Sei	rvice Charges
	payable during the service contract	period by the First	Party to th	ne Third Party
	shall be as under :-			
	Rate for 1st year = Rs			
	Rate for 2nd year = Rs			
	Rate for 3rd year = Rs		For	Units
	Rate for 4th year = Rs			
	Rate for 5th year = Rs			

NOTE: The AMC / CMC charges shall be payable in Indian Rupees only.

- 14.3 In case CMC, these charges include the cost of replacement parts/components/spares/accessories etc which shall be borne by the Second and Third Party. In case of AMC these charges do not include the cost of any replacement parts/components etc.
- 14.4 The payment of the Service Contract will be released to the firm in four equal installments after verification of all service reports. The payment will be made after the expiry of each quarter.
- 14.5 The firm will arrange 4 regular visits (one every three months) every year for keeping the equipment in good working condition during the period of Service Contract. In addition to it, the firm will be responsible for attending to all emergency break down calls as and when required by the concerned department during the year.
- 14.6 No price revision will be accepted by the First Party during the tenure of the Agreement.

#### 15 FORCE MAJEURE:

Any failure of omission or commission to carry out the provisions of this contract by the supplier shall not give rise to any claim by any party, one against the other, if such failure of omission or commission arises from an act of God, which shall include all acts of natural calamities such as fire, flood, earthquake, hurricane, or any pestilence or from civil strikes, compliance with any statute and/or regulations of the Government, lockouts and strikes, riots, embargoes or from any political or other reasons beyond the supplier's control including war (whether declared or not), Civil War or state of insurrection, provided that notice of the occurrence of any event by either party to the other shall be given within two weeks from the date of occurrence of such an event which could be attributed to Force Majeure conditions.

#### 16. ARBITRATION:

16.1 If at any time, any question, dispute or difference whatever shall arise between the two parties upon or in relation to or in connection with this Agreement, either of the parties may give to the other notice in writing of the existence of such a question, dispute or difference and the same shall be referred to two Arbitrators one to be nominated by the First Party and the other to be nominated by the Second Party/Third Party. Such a notice of the existence of any question, dispute

or difference in connection with the Agreement shall be served by either party within one year of the beginning of such dispute failing which all rights and claims under this Agreement shall be deemed to have been forfeited and absolutely barred.

Before proceeding with the reference, the Arbitrators shall appoint/nominate an Umpire. In the event of the Arbitrators not agreeing in their award, the Umpire appointed by them shall enter upon the reference and his award shall be binding on the parties. The venue of the arbitration shall be at Chandigarh (India). The Arbitrators/Umpire shall give a reasoned award.

- 16.2 The provisions of the Indian Arbitration Act in force and of rules framed there under and any statutory modifications thereof shall be deemed to apply and be incorporated in this Agreement.
- 16.3 Upon every or any such reference, the cost of any incidentals to the reference and award(s) respectively shall be at the discretion of the Arbitrators or in the event of their not agreeing, of the Umpire appointed by them who may determine the amount thereof or direct the same to be fixed as between solicitors and client or as between parties and shall direct by whom and in what manner the same shall be borne and paid.

#### 17. JURISDICTION:

The courts at Chandigarh alone will have the jurisdiction to try any matter, dispute or reference between the parties arising out of this Agreement/Contract. It is specifically agreed that no court outside and other than Chandigarh court shall have jurisdiction in the matter.

#### PERFORMANCE BOND (BANK GUARANTEE)

In consideration for The Principal cum Professor, Dr. Harvansh Singh. J	udge
Institute of Dental Sciences & Hospital, Sector-25, Panjab University, Chand	igarh
(hereinafter called the purchaser) having agreed to release the 100% payment of	f net
F.O.B. price as per terms and conditions of a concluded Contract No	
dated (hereinafter called 'the contract') for supply (hereinafter called the goods and services) to M	
(hereinafter called 'the supplier')	
submission of a Bank Guarantee to the satisfaction of the purchaser for the performance of the said contract.	due
We, (hereinafter called	'the
Bank') at the request of the supplier do, as a primary obliger and not merely as subtereby irrevocably, unconditionally and absolutely undertake against any loss or data caused or suffered by the purchaser by reason of any failure of the supplier to perform omission or negligence to perform any part of its obligations to the satisfaction of purchaser in terms of the contract.	mage rm or

We, the Bank, do hereby undertake to pay the amount due and payable under this guarantee without any demur merely on a demand from the purchaser stating that the amount claimed is due by way of loss or damage caused to or would be caused to or suffered by the purchaser by reason of any breach by the said supplier of any of the terms and conditions contained in a said contract or by reason of the supplier's failure or omission or negligence to perform the said contract or any part thereof. Any such demand made on the Bank shall be conclusive as regards the amount due and payable by the bank under this guarantee, which shall not be considered as satisfied by any intermediate payment or satisfaction of any part of or obligation hereunder. However, our liability under this Guarantee shall be restricted to an amount not exceeding

We, the Bank, undertake to pay to the purchaser any amount so demanded by the purchaser, notwithstanding,

- a) any dispute or difference between the purchaser and the supplier or any other person or between the supplier or any person or any suit or proceeding pending before any court or tribunal or arbitrator relating thereto or
- b) the invalidity, irregularity or unenforceability of the contract or
- c) any other circumstances which might otherwise constitute discharge of this guarantee, including any act or omission or commission on the part of the purchaser to enforce the obligations by the supplier or any other person for any reason whatsoever.

We, the Bank, further agree that the Guarantee herein contained shall be continued one and remain in full force and effect during the period that would be taken for the performance of the said contract and that it shall continue to be enforceable till all the dues of the purchaser under or by virtue of the said contract have been fully paid and its claims satisfied or discharged or till the office of The Principal cum Professor, Dr.

Harvansh Singh. Judge Institute of Dental Sciences & Hospital, Sector-25, Panjab University, Chandigarh that the terms and conditions of the said contract have been fully and promptly carried out by the said supplier and accordingly discharges this Guarantee.

We, the Bank, hereby agree and undertake that any claim which the Bank may have against the supplier shall be subject to and subordinate to the prior payment and performance in full of all the obligations of the bank hereunder and the bank will not, without prior written consent of the purchaser, exercise any legal rights or remedies of any kind in respect of any such payment or performance so long as the obligations of the bank hereunder remain owning and outstanding, regardless of the insolvency, liquidation or bankruptcy of the supplier or otherwise howsoever. We, the Bank, will not counter claim or set off against its liabilities to the purchaser hereunder any sum outstanding to the credit of the purchaser with it.

We, the Bank, further agree with the purchaser that the purchaser shall have the fullest liberty without our consent and without affecting in any manner out obligations hereunder to vary any of the terms and conditions of the said contract or to extend time of performance by the said supplier from time to time or to postpone for any time or from time to time and of the powers exercisable by the purchaser against the said supplier and forbear or enforce any of the terms and conditions relating to the said contract and we shall not be relieved from our liability by reason of any such variation or extension being granted to the said supplier or for any forbearance, act or omission on the part of the purchaser or any indulgence by the purchaser to the said supplier or by any such matter or thing whatsoever which under the law relating to sureties would, but for this provision, have effect of so relieving us.

This guarantee will not be discharged due to the change in the constitution of the Bank or the supplier.

We, the Bank, lastly undertakes not to revoke this Guarantee during its currency except with the previous consent of the purchaser in writing.

The disputes relating to this Bank Guarantee shall be resolved as per the terms and conditions of the contract.
